

## **Request for Extension of Special Temporary Authority**

On April 29, 2014, the International Bureau granted the request filed by O3b Limited (“O3b”) for special temporary authority (“STA”) to conduct tests at the U.S Navy SPAWAR/CODA Lab at the U.S. Navy Base in San Diego, California, using two 1.2m antennas.<sup>1</sup> O3b, pursuant to Section 25.120 of the Commission’s rules,<sup>2</sup> hereby requests a further extension of its STA covering the 180-day period between May 30, 2014, and November 26, 2014.

O3b’s extension request is supported by good cause. An extension will enable O3b to continue its testing and evaluation of O3b services that could benefit the U.S. Navy. By granting O3b’s initial STA request, the Bureau already has found that facilitating these activities is in the public interest.

Accordingly, and for good cause shown, O3b respectfully requests that its STA extension request be granted.
