File # SES-STA-20140829-00680

Call Sign KB27
(or other identifier)

Term Dates
From 10/01/2014 To: 11/06/2014

Approved: *Paul E. Mah*

Applicant: SES Americom, Inc.
Call Sign: KB27
File No.: SES-STA-20140829-00680

SES Americom, Inc. ("SES") is granted special temporary authority (STA), for 30 days, to commence no later than October 7, 2014, to use the following earth stations to perform Tracking, Telemetry and Command ("TT&C") to retire the NSS-703 satellite currently at 47.05° W.L.

- 1) *Operations under this STA shall not cause harmful interference to, and shall not claim protection from, interference caused to it by any other lawfully operating station and it shall cease transmission(s) immediately upon notice of such interference.*
- 2) *Any action taken or expense incurred as a result of operations pursuant to this STA is solely at SES Americom's risk.*
- 3) *This action is issued pursuant to Section 0.261 of the Commission's rules on delegated authority, 47 C.F.R. §0.261, and is effective immediately.*

WILLFUL FALSE STATEMENTS MADE ON THIS FORM ARE PUNISHABLE BY FINE AND / OR IMPRISONMENT (U.S. Code, Title 18, Section 1001), AND/OR REVOCATION OF ANY STATION AUTHORIZATION (U.S. Code, Title 47, Section 312(a)(1)), AND/OR FORFEITURE (U.S. Code, Title 47, Section 503).	

FCC NOTICE REQUIRED BY THE PAPERWORK REDUCTION ACT

The public reporting for this collection of information is estimated to average 2 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the required data, and completing and reviewing the collection of information. If you have any comments on this burden estimate, or how we can improve the collection and reduce the burden it causes you, please write to the Federal Communications Commission, AMD-PERM, Paperwork Reduction Project (3060-0678), Washington, DC 20554. We will also accept your comments regarding the Paperwork Reduction Act aspects of this collection via the Internet if you send them to PRA@fcc.gov. PLEASE DO NOT SEND COMPLETED FORMS TO THIS ADDRESS.

Remember – You are not required to respond to a collection of information sponsored by the Federal government, and the government may not conduct or sponsor this collection, unless it displays a currently valid OMB control number or if we fail to provide you with this notice. This collection has been assigned an OMB control number of 3060-0678.

THE FOREGOING NOTICE IS REQUIRED BY THE PAPERWORK REDUCTION ACT OF 1995, PUBLIC LAW 104-13, OCTOBER 1, 1995, 44 U.S.C. SECTION 3507.

APPLICATIONS FOR SPECIAL TEMPORARY AUTHORITY

(Call Signs E070181, WB81 and KB27)

SES Americom, Inc. (“SES”) respectfully requests Special Temporary Authority (“STA”) – to commence no later than October 7, 2014 – to use the following earth stations to perform Tracking, Telemetry and Command (“TT&C”) to retire the NSS-703 satellite currently at 47.05° W.L.:

SES Designation	FCC Call Sign	Antenna Model	Coordination Arc	Use During De-orbit	Max EIRP dBW	Max EIRP Density dBW/4kHz
Woodbine C8	E070181 WBES-IS1R	7.3m Vertex	15W-140W	47.05W-65.5W	76.3	49.1
Vernon TC1	WB81 Ant#2	13m Vertex	5W-143W	47.05W-143W	88.9	57.7
South Mtn TC1	KB27 Ant#1	13m Vertex	53W-188W	53W-188W	89.9	66.8

During the maneuvers to retire NSS-703, these earth stations will communicate with the satellite on the following TT&C frequencies:

- Command 1 6173.7 MHz
- Command 2 6176.3 MHz
- Telemetry 1 3947.5 or 3948 MHz
- Telemetry 2 3952.5 or 3952 MHz

The earth stations will be operated in accordance with their licensed and coordinated technical parameters, with the following exception. Specifically, the Woodbine C8 antenna (Call Sign E070181), may need to be operated at up to 50 dBW/4 kHz EIRP density in order to command the satellite in an emergency situation during the initial portion of the de-orbit drift from 47.05° W.L. to approximately 65.5° W.L. Specifically, such higher power would be needed only if the Vernon TC1 antenna (Call Sign WB81 Ant#2) were not available due to some unforeseen outage. SES respectfully requests an STA to operate the Woodbine C8 antenna (Call Sign E070181) in excess of its licensed and coordinated power limits on a non-harmful interference basis in the event of such an emergency.

In any event, all earth station operations during the retirement of NSS-703 will be performed on a non-harmful interference, non-protected basis. In addition, SES will coordinate the de-orbit drift with all potentially affected satellite operators in accordance with industry practice. SES will cease operations upon receipt of notification of harmful interference. The SES point of contact for interference matters during the NSS-703 retirement maneuvers is the SES Satellite Control Center, +352 710 725 212, soc@ses.com (attention: Duty Satellite Controller).

Grant of the requested STAs will serve the public interest, as it will enable the NSS-703 satellite to be deorbited in accordance with the satellite’s authorized post-mission disposal plan. *See SES Satellites (Gibraltar) Limited*, Stamp Grant, File Nos. SAT-PPL-20101103-00230, 20110120-00015, Call Sign S2818 (granted Oct. 13, 2011).

SES respectfully requests STAs for an initial period of 30 days to begin on October 7, 2014. However, the retirement of the satellite may take longer than 30 days to ensure full venting of the fuel and oxidizer on the spacecraft. Accordingly, SES will be requesting an extension of these STAs for another 30 days.¹

¹ SES will separately file an application for Special Temporary Authority to use its Sunset Beach C2 antenna (call sign E090060) to support the de-orbiting of NSS-703 once the terrestrial frequency coordination process for that antenna has been updated.
