Call Sign KL92 Grant Date 11/21/2014
(or other identifier)

Term Dates From 11/16/2014 To: 12/15/2014

Approved: *Susan H. Crandall*

Applicant: Intelsat License LLC
Call Sign: KL92
File No.: SES-STA-20141112-00856
Special Temporary Authority (ST A)

Intelsat License LLC is granted STA to operate its earth station Call Sign KL92 in Castle Rock, Colorado for 30 days to conduct launch and early orbit phase (LEOP) services and provide telemetry, tracking, and control (TT&C) functions during in-orbit testing (IOT) and drift of the U.S. licensed Intelsat 30 satellite. The satellite is expected to be launched on October 16, 2014, to continue providing TT&C services to Intelsat 30 at its permanent location of 95.05° W.L. The LEOP and TT&C operations during IOT will be under the following conditions:

1. Intelsat will perform the operations in the uplink frequencies (Earth-to-space): 13750.50 MHz and 14003.50 MHz (LHCP) and the downlink frequencies (space-to-Earth): 11198.00 MHz, 11198.50 MHz, 11199.25 MHz and 11199.75 MHz (RHCP). The maximum EIRP shall not exceed 85 dBW per NTIA manual US 356.
2. Intelsat will coordinate the proposed IOT operations at IOT location 132.0° W.L. with operators of co-frequency satellites within six degrees. During the drift from 132.0° W.L. to the satellite's permanent orbital location 95.05° W.L., Intelsat will coordinate with operators of co-frequency satellites in the drift path.
3. LEOP operations must be coordinated with all operators of satellites that use the same frequency bands and are in the LEOP path. All operators of satellites in that path will be provided with an emergency phone number where the licensee can be reached in the event that harmful interference occurs. Currently the 24x7 contact information for the Intelsat 30 LEOP mission is as follows: Ph.: (703) 559-7701 - East Coast Operations Center (primary); (310) 525-5591 - West Coast Operations Center (back-up). Request to speak with Harry Burnham or Kevin Bell.
4. Operations, shall not cause harmful interference to, and shall not claim protection from, interference caused to it by any other lawfully operating station and it shall cease transmission(s) immediately upon notice of such interference.
5. In the event of any harmful interference under this grant of STA, Intelsat License LLC KL92 must cease operations immediately upon notification of such interference, and must inform the Commission, in writing, immediately of such an event.
6. Grant of this authorization is without prejudice to any determination that the Commission may make regarding pending or future Intelsat License LLC applications.
7. Any action taken or expense incurred as a result of operations pursuant to this

STA is solely at Intelsat License LLC's risk.

8. "Operations in the 13.75-14.0 GHz band may only exceed 85 dBw/carrier if an emergency situation exists and the applicant must notify FCCOperationCenter@fcc.gov of the situation with copy to paul.blais@fcc.gov."

This action is issued pursuant to Section 0.261 of the Commission's rules on delegated authority, 47 C.F.R. §0.261, and is effective immediately.

FCC NOTICE REQUIRED BY THE PAPERWORK REDUCTION ACT

The public reporting for this collection of information is estimated to average 2 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the required data, and completing and reviewing the collection of information. If you have any comments on this burden estimate, or how we can improve the collection and reduce the burden it causes you, please write to the Federal Communications Commission, AMD-PERM, Paperwork Reduction Project (3060-0678), Washington, DC 20554. We will also accept your comments regarding the Paperwork Reduction Act aspects of this collection via the Internet if you send them to PRA@fcc.gov. PLEASE DO NOT SEND COMPLETED FORMS TO THIS ADDRESS.

Remember – You are not required to respond to a collection of information sponsored by the Federal government, and the government may not conduct or sponsor this collection, unless it displays a currently valid OMB control number or if we fail to provide you with this notice. This collection has been assigned an OMB control number of 3060-0678.

THE FOREGOING NOTICE IS REQUIRED BY THE PAPERWORK REDUCTION ACT OF 1995, PUBLIC LAW 104-13, OCTOBER 1, 1995, 44 U.S.C. SECTION 3507.

12. Description

Intelsat License LLC herein requests an additional 30 days, from November 16, 2014 through December 15, 2014, of the Special Temporary Authority previously granted Intelsat to use its Castle Rock, Colorado Ku-band earth station, call sign KL92, to provide launch and early orbit phase services, and continued TT&C services, for Intelsat 30, which was launched on October 16, 2014.

November 12, 2014

Ms. Marlene H. Dortch
Secretary
Federal Communications Commission
445 12th Street, S.W.
Washington, D.C. 20554

Re: Request for Extension of Special Temporary Authority
Castle Rock, Colorado Earth Station KL92

Dear Ms. Dortch:

Intelsat License LLC (“Intelsat”) herein requests an additional 30 days—from November 16, 2014 through December 15, 2014—of the Special Temporary Authority (“STA”)¹ previously granted Intelsat to use its Castle Rock, Colorado Ku-band earth station—call sign KL92—to provide launch and early orbit phase (“LEOP”) services for Intelsat 30, which was launched on October 16, 2014.² Intelsat also requests extension of its STA to provide telemetry, tracking, and control (“TT&C”) services at the in-orbit testing (“IOT”) location, 132.0° W.L., and to drift the satellite from the IOT location to Intelsat 30’s final location at 95.05° W.L. Finally, Intelsat requests that this STA extension include the ability to continue providing TT&C services to Intelsat 30 at its permanent location of 95.05° W.L. Intelsat has a pending application to permanently modify the antenna’s license for this on-station TT&C.³

Intelsat 30 has completed IOT at 132.0° W.L. and is currently drifting to 95.05° W.L. The satellite is expected to be on-station at 95.05° W.L. on or around November 21, 2014.

The Intelsat 30 operations will continue to be performed using the following frequencies: 13750.50 MHz and 14003.50 MHz in the uplink (LHCP), and 11198.00 MHz, 11198.50 MHz, 11199.25 MHz, and 11199.75 MHz in the downlink (RHCP). Intelsat will continue to coordinate with all operators of satellites that use the same frequency bands and are in the LEOP path, the drift path, or are potentially affected by these operations at the 95.05° W.L. location.⁴ All operators of potentially affected satellites will be provided with an emergency phone number where the licensee can be reached in the event that harmful interference occurs.

¹ Intelsat has filed its STA request, an FCC Form 159, a \$195.00 filing fee, and this supporting letter electronically via the International Bureau’s Filing System (“IBFS”).

² See *Satellite Communications Services Information; Actions Taken*, Report No. SES-01691, File No. SES-STA-20140917-00735 (Oct. 15, 2014) (Public Notice).

³ See *Intelsat License LLC Request for Modification of Earth Station KL92*, File No. SES-MOD-20141030-00834 (filed October 30, 2014).

⁴ Intelsat will continue to handle the coordination.

Ms. Marlene H. Dortch
November 12, 2014
Page 2

The 24x7 contact information for the Intelsat 30 mission is as follows:

Ph.: (703) 559-7701 – East Coast Operations Center (primary)
(310) 525-5591 – West Coast Operations Center (back-up)

Request to speak with Harry Burnham or Kevin Bell.

In further support of this request, Intelsat incorporates by reference the Exhibit A, submitted with its original STA request, which contains technical information that demonstrates that the operation of the earth station will be compatible with its electromagnetic environment and will not cause harmful interference into any lawfully operating terrestrial facility. In the extremely unlikely event that harmful interference should occur due to transmissions to or from its earth station, Intelsat will take all reasonable steps to eliminate the interference. Intelsat also notes that for purposes of the Intelsat 30 mission, it is seeking to operate in the frequencies listed in this request at power levels not to exceed 28.0 dBW.

Grant of this STA extension request will allow Intelsat to complete the Intelsat 30 launch mission and to ensure safe station-keeping of the satellite. This, in turn, will help ensure continuity of service at the 95.05° W.L. orbital location and thereby promotes the public interest.

Please direct any questions regarding this STA request to the undersigned at (703) 559-7848.

Respectfully submitted,

Susan H. Crandall
Associate General Counsel
Intelsat Corporation
