Term Dates From 03/01/2015 To 04/01/2015

Approved: [Signature]

Applicant: Intelsat License LLC
Call Sign: E4132
File No.: SES-STA-20141208-00888

Intelsat License LLC is granted special temporary authority (STA), for 30 days, beginning March 1, 2015, to use its Fillmore, California earth station, Call Sign E4132, to provide launch and early orbit phase (LEOP) services to the IRNSS-1D satellite licensed by India on the center frequencies: 5850.982 MHz and 5853.028 MHz (Earth-to-space), and 4199.508 MHz and 4199.760 MHz (space-to-Earth) under the following conditions,.

1. All operations must be within the coordinated emission and power limits.
2. The LEOP operations must be coordinated with all operators of satellites that use the same frequency bands and are in the LEOP path. All operators of satellites in that path will be provided with an emergency phone number where the licensee can be reached in the event that harmful interference occurs. Currently the 24x7 contact information for the IRNSS-1D satellite LEOP mission is as follows: Ph.: (703) 559-7701 -East Coast Operations Center (primary); (310) 525-5591- West Coast Operations Center (back-up). Request to speak with Harry Burnham or Kevin Bell.
4. All operations shall be on an unprotected and non-harmful interference basis, Intelsat License LLC, E04132, shall not cause harmful interference to, and shall not claim protection from, interference caused to it by any other lawfully operating station and it shall cease transmission(s) immediately upon notice of such interference.
5. Grant of this authorization is without prejudice to any determination that the Commission may make regarding pending or future Intelsat License LLC applications.
6. This STA can only be used to provide launch and early orbit phase ("LEOP") services for the Indian Regional Navigational Satellite System 1D satellite.

This action is issued pursuant to Section 0.261 of the Commission's rules on delegated authority, 47 C.F.R. §0.261, and is effective immediately.

Re: Request for Special Temporary Authority
Fillmore, California Earth Station E4132

Dear Ms. Dortch:

Intelsat License LLC (“Intelsat”) herein requests a grant of Special Temporary Authority (“STA”)¹ for 30 days, commencing December 31, 2014, to use its Fillmore, California C-band earth station—call sign E4132—to provide launch and early orbit phase (“LEOP”) services for the Indian Regional Navigational Satellite System (“IRNSS”) 1D satellite. IRNSS-1D is expected to be launched no earlier than December 31, 2014.² The LEOP period is expected to last approximately 10 days.³

The IRNSS-1D LEOP operations will be performed in the following frequency bands: 5850.982 MHz and 5853.028 MHz in the uplink (CP), and 4199.508 MHz and 4199.760 MHz in the downlink (CP). The LEOP operations will be coordinated with all operators of satellites that use the same frequency bands and are in the LEOP path.⁴ All operators of satellites in that path will be provided with an emergency phone number where the licensee can be reached in the event that harmful interference occurs.

The 24x7 contact information for the IRNSS-1D LEOP mission is as follows:

Ph.: (703) 559-7701 – East Coast Operations Center (primary)
(310) 525-5591 – West Coast Operations Center (back-up)

Request to speak with Harry Burnham or Kevin Bell.

¹ Intelsat has filed its STA request, an FCC Form 159, a \$195.00 filing fee, and this supporting letter electronically via the International Bureau’s Filing System (“IBFS”).

² The permanent orbital location for IRNSS-1D, which Intelsat understands is licensed by India, will be at 111.75° E.L. The in-orbit testing location will be 111.75° E.L.

³ Intelsat is seeking authority for 30 days to accommodate a possible launch delay.

⁴ Indian Space Research Organization, the manager of the IRNSS-1D LEOP mission, will handle the coordination.

Ms. Marlene H. Dortch
December 8, 2014
Page 2

In further support of this request, Intelsat hereby attaches, as Exhibit A, a waiver request. Intelsat also notes that for purposes of the IRNSS-1D LEOP mission, it is seeking to operate in the frequencies listed in the request at power levels not to exceed 30 dBW. In the extremely unlikely event that harmful interference should occur due to transmissions to or from its earth station, Intelsat will take all reasonable steps to eliminate the interference.

Finally, Intelsat clarifies that during the IRNSS-1D launch, the Indian Space Research Organization ("ISRO") will control the spacecraft. ISRO will build and send the commands to the Intelsat antenna, which will process and execute the commands. Telemetry received by Intelsat will be forwarded to ISRO. Intelsat will remain in control of the baseband unit, RF equipment, and antenna.

Grant of this STA request will allow Intelsat to help launch the IRNSS-1D satellite. This, in turn, will help provide navigation services to India and neighboring areas from the 111.75° E.L. orbital location and thereby promotes the public interest.

Please direct any questions regarding this STA request to the undersigned at (703) 559-6949.

Respectfully submitted,

Cynthia J. Grady
Regulatory Counsel
Intelsat Corporation
