

Request for Extension of Special Temporary Authority

The International Bureau previously granted the request filed by O3b Limited (“O3b”) for special temporary authority (“STA”)¹ to operate its 2.4m earth station located in Bristow, Virginia (the “Virginia Earth Station”) in accordance with the parameters specified in its underlying license application,² and extended the STA through December 30, 2014.³

Pursuant to Section 25.120 of the Commission’s rules,⁴ O3b hereby requests a further extension of its STA covering the 180-day period between December 31, 2014, and June 29, 2015.

O3b’s extension request is supported by good cause. An extension will enable O3b to continue to monitor the O3b system so that it may identify and resolve space station and system anomalies. By granting O3b’s initial STA request, the Bureau already has found that facilitating these activities is in the public interest.

Accordingly, and for good cause shown, O3b respectfully requests that its STA extension request be granted.
