Re: Request for Special Temporary Authority
Fillmore, California Earth Station E4132
File No. SES-STA-20141216-00901

Dear Ms. Dortch:

Intelsat License LLC (“Intelsat”) herein supplements its above referenced request for Special Temporary Authority (“STA”) to use the above referenced earth station located at its Fillmore, California teleport to provide launch and early orbit phase (“LEOP”) for the ABS-3A satellite that is expected to be launched no earlier than February 1, 2015. Specifically, Intelsat is supplying a January 30, 2015 letter from the National Information & Communications Technology Authority (NICTA) to ABS Global, Ltd.

Please direct any further questions regarding this STA request to the undersigned at (703) 559-6949.

Sincerely,

Cynthia J. Grady
Regulatory Counsel
Intelsat Corporation

No. of Pages (incl. this page):1

Dear Sir,

National Information Communication Technology Authority (NICTA) confirms to ABS Global, Ltd ("ABS") that the Government of the Independent State of Papua New Guinea ("PNG") is a party to the 1967 Treaty on Principles Governing the Activities of States in the Exploration and Use of Outer Space, including the Moon and Other Celestial Bodies (the "Outer Space Treaty") and the 1972 The Convention on International Liability for Damage Caused by Space Objects (the "Liability Convention").

NICTA also confirms that PNG is the notifying administration under the International Telecommunication Convention for certain radio-frequency allocations for the ABS-2 and the ABS-3A commercial communications satellites.

This letter confirms the intention of PNG to undertake to register both satellites with the United Nations Office for Outer Space Affairs. As a condition for such undertaking, we require that ABS include PNG as an additional insured under any third party launch liability insurance provided and maintained in connection with the ABS-2 satellite and the forthcoming launch of the ABS-3A satellite.

Yours faithfully,

VLADÉ DONCEVSKI
DIRECTOR ENGINEERING AND RESOURCE PLANNING
