Re: Requests for Special Temporary Authority
Earth Stations E4132; KA275; E040125; and E000296
File Nos. SES-STA-20141217-00904; SES-STA-20141217-00906;
SES-STA-20141217-00907; and SES-STA-20141218-00908;

Dear Ms. Dortch:

Intelsat License LLC (“Intelsat”) herein supplements its above referenced request for Special Temporary Authority (“STA”) to use the above referenced earth stations to provide launch and early orbit phase (“LEOP”) for the Eutelsat-115WB satellite that is expected to be launched no earlier than February 1, 2014.

Specifically, Intelsat corrects the fifth paragraph to read:

Finally, Intelsat clarifies that during the Eutelsat-115WB LEOP mission, Boeing will *serve as the mission manager*. Boeing will build and send the commands to the Intelsat antenna, which will process and execute the commands. Telemetry received by Intelsat will be forwarded to Boeing. Intelsat will perform the ranging sessions by sending a tone to the spacecraft periodically. Intelsat will remain in control of the baseband unit, RF equipment, and antenna.

Please direct any further questions regarding this STA request to the undersigned at (703) 559-6949.

Sincerely,

Cynthia J. Grady
Regulatory Counsel
Intelsat Corporation
