Re: Requests for Special Temporary Authority  
Earth Stations E000363 & E040174  
File Nos. SES-STA-20150203-00051 & SES-STA-20150203-00053

Dear Ms. Dortch:

Intelsat License LLC (“Intelsat”) herein supplements its above referenced requests for Special Temporary Authority (“STA”) to use the above referenced earth stations to provide launch and early orbit phase (“LEOP”) for the ABS-3A satellite, which launched March 1, 2015.

Specifically, Intelsat corrects the second paragraph to read:

The ABS-3A LEOP operations will be performed in the following frequency bands: **6420.00 MHz** and **6425.0 MHz** in the uplink (LHCP), and 4194.5 MHz and 4197.0 MHz in the downlink (LHCP). The LEOP operations will be coordinated with all operators of satellites that use the same frequency bands and are in the LEOP path. All operators of satellites in that path will be provided with an emergency phone number where the licensee can be reached in the event that harmful interference occurs.

Please direct any further questions regarding this STA request to the undersigned at (703) 559-6949.

Sincerely,

Cynthia J. Grady  
Regulatory Counsel  
Intelsat Corporation
