

APPLICATION FOR EARTH STATION SPECIAL TEMPORARY AUTHORITY

APPLICANT INFORMATION Enter a description of this application to identify it on the main menu:
Request for Special Temporary Authority

1. Applicant

Name:	Deere & Company	Phone Number:	310-381-2000
DBA Name:		Fax Number:	310-381-2001
Street:	20780 Madrona Ave.	E-Mail:	lewellenmarkn@johndeere.com
City:	Torrance	State:	CA
Country:	USA	Zipcode:	90503 -3777
Attention:	Mr. Mark Lewellen		

File # SES-STA-20150501-00286
 Call Sign E010011 Grant Date 5/12/2015
 (or other identifier)
 Term Dates
 From 5/12/2015 To: 07/10/2015
 Approved: Paul E. Blawie
 Admin Grant based on Section
 1.62 of 47 C.F.R.

2. Contact

Name: Catherine Wang **Phone Number:** 202-373-6037
Company: Morgan, Lewis & Bockius LLP **Fax Number:** 202-373-6001
Street: 2020 K St., N.W. **E-Mail:** catherine.wang@morganlewis.com
City: Washington **State:** DC
Country: USA **Zipcode:** 20006 -
Attention: **Relationship:** Legal Counsel

(If your application is related to an application filed with the Commission, enter either the file number or the IB Submission ID of the related application. Please enter only one.)

3. Reference File Number SESRWL2011090801047 or Submission ID

4a. Is a fee submitted with this application?

If Yes, complete and attach FCC Form 159. If No, indicate reason for fee exemption (see 47 C.F.R. Section 1.1114).

- Governmental Entity Noncommercial educational licensee
 Other (please explain):

4b. Fee Classification CGB – Mobile Satellite Earth Stations

5. Type Request

- Use Prior to Grant Change Station Location Other

6. Requested Use Prior Date

05/07/2015

7. City/Contiguous U.S., Alaska & Hawaii	8. Latitude (dd mm ss.s h) 0 0 0.0
9. State	10. Longitude (dd mm ss.s h) 0 0 0.0
11. Please supply any need attachments. Attachment 1: Exhibit A Attachment 2: Attachment 3:	
12. Description. (If the complete description does not appear in this box, please go to the end of the form to view it in its entirety.) Deere & Company seeks follow-on special temporary authority to operate StarFire terminals with modified receive-only frequencies during the pendency of license of license modification application to Call Sign E010011. Please see Exhibit A for STA justification.	
13. By checking Yes, the undersigned certifies that neither applicant nor any other party to the application is subject to a denial of Federal benefits that includes FCC benefits pursuant to Section 5301 of the Anti-Drug Act of 1988, 21 U.S.C. Section 862, because of a conviction for possession or distribution of a controlled substance. See 47 CFR 1.2002(b) for the meaning of "party to the application"; party to the application; for these purposes. Yes <input checked="" type="radio"/> No <input type="radio"/>	
14. Name of Person Signing Mark Lewellen	15. Title of Person Signing Spectrum Manager
WILLFUL FALSE STATEMENTS MADE ON THIS FORM ARE PUNISHABLE BY FINE AND / OR IMPRISONMENT (U.S. Code, Title 18, Section 1001), AND/OR REVOCATION OF ANY STATION AUTHORIZATION (U.S. Code, Title 47, Section 312(a)(1)), AND/OR FORFEITURE (U.S. Code, Title 47, Section 503).	

FCC NOTICE REQUIRED BY THE PAPERWORK REDUCTION ACT

The public reporting for this collection of information is estimated to average 2 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the required data, and completing and reviewing the collection of information. If you have any comments on this burden estimate, or how we can improve the collection and reduce the burden it causes you, please write to the Federal Communications Commission, AMD-PERM, Paperwork Reduction Project (3060-0678), Washington, DC 20554. We will also accept your comments regarding the Paperwork Reduction Act aspects of this collection via the Internet if you send them to PRA@fcc.gov. PLEASE DO NOT SEND COMPLETED FORMS TO THIS ADDRESS.

Remember – You are not required to respond to a collection of information sponsored by the Federal government, and the government may not conduct or sponsor this collection, unless it displays a currently valid OMB control number or if we fail to provide you with this notice. This collection has been assigned an OMB control number of 3060-0678.

THE FOREGOING NOTICE IS REQUIRED BY THE PAPERWORK REDUCTION ACT OF 1995, PUBLIC LAW 104-13, OCTOBER 1, 1995, 44 U.S.C. SECTION 3507.

EXHIBIT A – REASON FOR SPECIAL TEMPORARY AUTHORITY

Deere & Company (“Deere”), pursuant to Section 25.120(b)(3) of the Commission’s Rules, 47 C.F.R. § 25.120(b)(3), hereby requests special temporary authority (“STA”) for a follow-on period of 60 days to operate receive-only, non-common carrier, mobile earth stations operating in the L-band to downlink transmissions from Inmarsat geostationary satellites at 15.5° and 54° west longitude and 178° east longitude (collectively “Inmarsat Satellites”).¹ The Commission granted Deere STA for an initial 60 day period on November 7, 2014 (File No. SES-STA-20141030-00836), and extended STA for a 60-day period on January 7, 2015 (SES-STA-20141217-00909). A follow-on application for STA was filed on February 27, 2015, requesting STA for a subsequent 60-day period beginning no later than March 8, 2015 (SES-STA-20150227-00104). Deere requests the instant follow-on authority to begin no later than May 7, 2015. Specifically, Deere requests STA for its existing network of mobile earth terminals (“METs”) operating under Call Sign E010011 to receive 2.5 kHz space-to-earth emissions (designator 2K50D1D) from the Inmarsat Satellites at the following center frequencies.²

Table 1.0 - Amended StarFire L-band Frequencies

Geostationary Arc Position	Center Frequency (MHz/Space-to-Earth)
54 west longitude	1545.9775
15.5 west longitude	1545.9875
178 east longitude	1545.9875

Since 2001, Deere has been enabling domestic agricultural equipment with its StarFire precision farming system. The StarFire system employs receive-only vehicle mounted mobile earth stations. These earth stations receive L-band space-to-earth emissions from Inmarsat geostationary satellites that provide correctional data. This data augments the navigational information the StarFire terminals receive simultaneously from Global Positioning System (“GPS”) satellites. This augmented system enables the operators of domestic farming equipment to pinpoint their location to within +/- 2.5 centimeters.³ This precise positioning capability developed originally to assist farmers in comparing the crop yields from various fields to determine, among other things, the amount of fertilizer and seed appropriate for a particular field and crop, has now found additional important uses to improve farming efficiency, including enabling farmers to manually record observations such as weed patches, crop appearance, and other field variables with remarkable precision. In addition, among other benefits, when coupled to the vehicle steering system through the Deere AutoTrack system it aids the operator to steer a

¹ All involved Inmarsat spacecraft have been approved to serve the United States, and are reflected on the Commission ISAT list.

² No changes have been made to the frequencies or technical parameters already approved in SES-STA-20141030-00836.

³ Navigational accuracy depends on several variables, including visibility to overhead satellites and other supplemental transmitters providing correctional data.

more precise path when making repeated passes over the same track, thus greatly reducing crop and soil damage.

Follow-on STA is needed because Deere was recently notified by Inmarsat that StarFire L-band downlink signals in North America would transition to frequencies identified above in Table 1.0.⁴ Grant of STA will serve the public interest by ensuring continuity of service for thousands of existing Deere StarFire customers during the pendency of Deere's concurrently filed permanent application to modify Call Sign E010011 to receive the above-referenced frequencies.⁵ Pursuant to Section 25.120(b)(3) of the rules, Deere requests a 60-day STA without the need for prior public notice. As discussed above, grant of authority is requested on or before close of business on May 7, 2015 so that Deere can continue to provide service to customers without any loss of service.

⁴ Vizada, Inc. ("Vizada") uplinks correctional data on Deere's behalf from earth stations located in Santa Paula, California and Southbury, Connecticut. After the frequency transition, Vizada will continue to provide the same uplink services.

⁵ Application Submission ID: IB2014002165.
