

Description

DG Consents Sub, Inc. (“DG Consents”), pursuant to Section 25.120(b)(3) of the Commission’s rules, 47 C.F.R. § 25.120(b)(3), hereby requests a 60-day extension of its existing Special Temporary Authority (“STA”) to receive Earth imaging data using the uppermost 25 MHz of the 8025-8400 MHz band (the “X-band”).¹ *See* File No. SES-STA-20150224-00100, as extended by File No. SES-STA-20150602-00318 and SES-STA-20150804-00509. The existing STA expires on October 7, 2015, and DG Consents requests an extension through December 6, 2015.

The requirement to use the 8375-8400 MHz band will continue past the October 7 expiration of the existing STA, thereby necessitating this request to extend the STA for an additional 60 days.² DigitalGlobe agrees to operate on a special temporary basis subject to the conditions included with the initial STA grant. Grant of this request will serve the public interest by allowing DigitalGlobe to continue to provide to the public without interruption its high-resolution imagery services using the Wyoming earth station.

In summary, DG Consents respectfully requests that the Commission grant this request for extension of its Special Temporary Authority for a period of 60 days through December 6, 2015.

¹ DG Consents is a wholly owned subsidiary of DigitalGlobe, Inc. (“DigitalGlobe”).

² DG Consents has filed a request seeking permanent use of the full 8025-8400 MHz band. *See* File No. SES-MOD-20140717-00604, as amended by File No. SES-AMD-20140725-00620. That request was accepted for filing on August 6, 2014, *see* Public Notice, Report No. SES-01670, and remains pending before the Commission.
