Request for Special Temporary Authority Using Fillmore, California Earth Station E4132

I. Applicant

Name:	Intelsat License LLC	Phone Number:	703-559-7848
DBA Name:		Fax Number:	703-559-8539
Street:	c/o Intelsat Corporation 7900 Tysons One Place	E-Mail:	susan.crandall@intelsat.com
City:	McLean	State:	VA
Country:	USA	Zipcode:	22102 -5972
Attention:	Susan H. Crandall		

30 days "with conditions"

File # SES-STA-20151016-00765

Call Sign E4132 Grant Date 10/30/2015
(or other identifier)

Term Dates
From 11/10/2015 To 12/10/2015

Approved: [Signature]

The stamp is a red rectangular box containing the FCC logo (a circular emblem with an eagle and the text 'FEDERAL COMMUNICATIONS COMMISSION') at the top. Below the logo, the word 'GRANTED' is printed in large, bold, capital letters. Underneath 'GRANTED', the words 'International Bureau' are printed in a smaller font.

Applicant: Intelsat License, LLC
File No.: SES-STA-20151016-00765
Call Sign: E4132
Special Temporary Authority (STA)

Intelsat License LLC is granted a STA, for 30 days, beginning November 10 to December 10, 2015, to use its C-band earth station at Fillmore, California, call sign: E4132, to provide launch and early orbit phase (LEOP) services for GSAT-15 satellite licensed by India on the center frequencies: Uplink (Earth-to-space): 6415.00 MHz and 6417.16 MHz (RHCP) and Downlink (space-to-Earth); 4198.272 MHz and 4199.280 MHz (LHCP) under the following conditions:

1. All operations must be within the coordinated emission and power limits.
2. The LEOP operations must be coordinated with all operators of satellites that use the same frequency bands and are in the LEOP path. All operators of satellites in that path will be provided with an emergency phone number where the licensee can be reached in the event that harmful interference occurs. Currently the 24x7 contact information for the GSAT-15 satellite LEOP mission is as follows: Ph: (703) 559-7701 - East Coast Operations Center (primary); (310) 525-5591-West Coast Operations Center (back-up). Request to speak with Harry Burnham or Kevin Bell.
3. All operations shall be on an unprotected and non-harmful interference basis. Intelsat License, LLC, E4132, shall not cause harmful interference to, and shall not claim protection from interference caused to it by any other lawfully operating station and it shall cease transmission(s) immediately upon notice of such interference.
4. Grant of this authorization is without prejudice to any determination that the Commission may make regarding pending or future Intelsat License LLC applications.
5. This STA can only be used to provide launch and early orbit phase ("LEOP") services for the GSAT-15 satellite.
6. This grant is issued pursuant to Section 0.261 of the Commission's rules on delegated authority, 47 C.F.R. § 0.261, and is effective upon release.

30 days *"with conditions"*

 GRANTED International Bureau	File # <u>SES-STA-20151016-00765</u>
	Call Sign <u>E4132</u> Grant Date <u>10/30/2015</u> (or other identifier)
	Term Dates From <u>11/10/2015</u> To <u>12/10/2015</u>
	Approved: <u>Paul E. Glass</u>

Ms. Marlene H. Dortch
October 16, 2015
Page 2

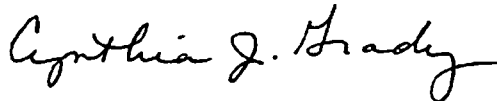

In further support of this request, Intelsat hereby attaches Exhibits A and B, which contain technical information that demonstrates that the operation of the earth station will be compatible with its electromagnetic environment and will not cause harmful interference into any lawfully operating terrestrial facility, as well as a waiver request. Intelsat also notes that for purposes of the GSAT-15 LEOP mission, it is seeking to operate in the frequencies listed in the request at power levels not to exceed 25.5 dBW. The technical information submitted with this STA request reflects a power level as high as 34.0 dBW because Intelsat might operate at this level in the event an emergency necessitates the use of a higher power level in order to command the satellite. In the extremely unlikely event that harmful interference should occur due to transmissions to or from its earth station, Intelsat will take all reasonable steps to eliminate the interference.

Finally, Intelsat clarifies that during the GSAT-15 launch, ISRO will control the spacecraft. ISRO will build and send the commands to the Intelsat antenna, which will process and execute the commands. Telemetry received by Intelsat will be forwarded to ISRO. Intelsat will remain in control of the baseband unit, RF equipment, and antenna.

Grant of this STA request will allow Intelsat to help launch the GSAT-15 satellite. This, in turn, will help ensure continuity of service at the 93.5° E.L. orbital location and thereby promotes the public interest.

Please direct any questions regarding this STA request to the undersigned at (703) 559-6949.

Respectfully submitted,

Cynthia J. Grady
Regulatory Counsel
Intelsat Corporation

Re: Request for Special Temporary Authority
Fillmore, California Earth Station E4132

Dear Ms. Dortch:

Intelsat License LLC ("Intelsat") herein requests a grant of Special Temporary Authority ("STA")¹ for 30 days, commencing November 10, 2015, to use its Fillmore, California C-band earth station—call sign E4132—to provide launch and early orbit phase ("LEOP") services for the GSAT-15 satellite. GSAT-15 is expected to be launched November 10, 2015.² The LEOP period is expected to last approximately 10 days.³

The GSAT-15 LEOP operations will be performed in the following frequency bands: 6415.00 MHz and 6417.16 MHz in the uplink (RHCP), and 4198.272 MHz and 4199.28 MHz in the downlink (LHCP). The LEOP operations will be coordinated with all operators of satellites that use the same frequency bands and are in the LEOP path.⁴ All operators of satellites in that path will be provided with an emergency phone number where the licensee can be reached in the event that harmful interference occurs.

The 24x7 contact information for the GSAT-15⁵/LEOP mission is as follows:

Ph.: (703) 559-7701 – East Coast Operations Center (primary)
(310) 525-5591 – West Coast Operations Center (back-up)

Request to speak with Harry Burnham or Kevin Bell.

¹ Intelsat has filed its STA request, an FCC Form 159, a \$195.00 filing fee, and this supporting letter electronically via the International Bureau's Filing System ("IBFS").

² The permanent orbital location for GSAT-15, which Intelsat understands is licensed by India, will be at 93.5° E.L. The in-orbit testing location will be 93.5° E.L.

³ Intelsat is seeking authority for 30 days to accommodate a possible launch delay.

⁴ Indian Space Research Organisation ("ISRO"), the manager of the GSAT-15 LEOP mission, will handle the coordination.
