Re: Shell Communications, Inc. – Clarification of Special Temporary Authorization (“STA”) Requests and Modification Applications

Dear Ms. Dortch:

Shell Communications, Inc. (“Shell”) is writing to clarify certain information in its recently granted requests for special temporary authorization (“STA”) and the associated pending modification applications, identified below.

The STA requests were developed to mirror Shell’s requests for long-term authority to add “Permitted List” as an authorized point of communication to the subject licenses. However, during the requested period of temporary operations, Shell will only communicate with Galaxy 28 (G28) at the 89° W.L. orbital location. Accordingly, Shell will not utilize full “Permitted List” authority during this period and the Commission may wish to condition the grant accordingly.

This clarification applies to the following STA requests and modification applications:
