MARCH 22, 2016

Exhibit A

SECTIONS 25.137 AND 25.114

The legal and technical qualifications of the Eutelsat-117WB (a.k.a. Satmex-9) satellite have been approved by the Commission and are included herein by reference. Specifically, the legal information requested in Section 25.137 and the technical information requested in Section 25.114, including the Schedule S information, for the Eutelsat 117W satellite can be found in Satelites Mexicanos, S.A. de C.V.'s granted request to add the satellite to the Permitted Space Station List. *See Policy Branch Information; Satellite Space Applications Accepted for Filing*, Report No. SAT-01103, File No. SAT-AMD-20141119-00123 (Aug 21, 2015) (Public Notice).

To the extent necessary, however, Intelsat respectfully requests a waiver of the need to provide additional technical information under Section 25.114 of the Commission's rules for its proposed LEOP service.¹ The Commission may grant a waiver for good cause shown.² The Commission typically grants a waiver where the particular facts make strict compliance inconsistent with the public interest.³ In granting a waiver, the Commission may take into account considerations of hardship, equity, or more effective implementation of overall policy on an individual basis.⁴ Waiver is therefore appropriate if special circumstances warrant a deviation from the general rule, and such a deviation will serve the public interest.

In this case, good cause exists for a waiver of Section 25.114. Intelsat has provided in this STA request the technical information that is relevant to the LEOP services for which Intelsat seeks authorization. The remainder of the information sought by Section 25.114 is not required to determine potential harmful interference because Intelsat will perform the LEOP services on a non-interference basis. Nor is it required to protect adjacent satellites because LEOP service involves communications *prior* to the satellite attaining its final location in the geostationary orbit. In other words, during the LEOP mission, the earth station will not be communicating with a satellite permanently located in the geostationary orbit. Rather, it will be transmitting to a satellite traveling on its "transfer orbit" or "LEOP path", which starts immediately following its separation from a launch vehicle, and ends when the satellite reaches its geostationary orbital location. In the special circumstance of LEOP services, waiver of the need to provide additional technical information under Section 25.114 serves the public interest.

Temporary Transmit-Only Earth Station
Operation Dates: 04/01/2016 - 04/15/2016

Pursuant to Part 25.203(c) of the FCC Rules and Regulations, the satellite earth station proposed in this application was coordinated by Comsearch using computer techniques and in accordance with Part 25 of the FCC Rules and Regulations. Verbal and written coordination was conducted with the below listed carriers on February 14, 2016.

Company

ABC Holding Company Inc.

Certification

I hereby certify that I am the technically qualified person responsible for the preparation of the frequency coordination data contained in this report. I am familiar with Parts 101 and 25 of the FCC Rules and Regulations and I have either prepared or reviewed the frequency coordination data submitted with this report, and that it is complete and correct to the best of my knowledge and belief.

Boeing Satellite Systems International, Inc.
Attn: Juliet Speir
Contracts Manager

Dear Ms. Speir,

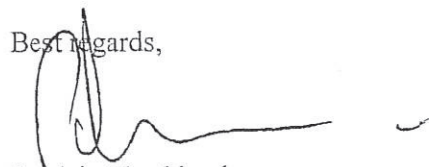

Reference is made to the Commercial Satellite Delivery Contract No. Contract No. BSS-SATMEX-12-001B by and between Boeing Satellite Systems International, Inc. (Boeing) and Eutelsat Latin America, S.A, (as successor of Satélites Mexicanos, S.A. de C.V.) ("Eutelsat") as amended.

By this mean, Eutelsat confirms that has already completed the FCC market access application process for E117WB and the Market Access has been granted. As a next step of the registration process for E117WB, Eutelsat is doing what is needed to register the E117WB satellite (F-4) before the United Nations Office for Outer Space Affairs, in conformity with the Registration Convention or General Assembly resolution 1721 B (XVI) and as recommended in General Assembly resolution 62/101.

Additionally, please rest assured that upon election and agreement with the corresponding Administration for the registry of the abovementioned satellite before the United Nations, we will properly make of knowledge of Boeing.

Should you require further information, please do not hesitate to contact us at your earliest convenience.

Best regards,

Patricio Northland
