Approved: Paul E. Black

Application: Viacom International Inc.  
Call Sign: E2707  
File No.: SES-STA-20160902-00760  
Special Temporary Authority

Viacom International Inc., is a granted of special temporary authority for 60 days, beginning September 08, 2016, to operate its 11 meter, Scientific-Atlanta, model 8016B, fixed earth station antenna located in Hauppauge, New York with the Permitted List satellites in the 3700-4200 MHz (space-to-Earth) and 5925-6425 MHz (Earth-to-space) frequency bands, with the emission designator: 36M0G7 and using left and right circular polarization, under the following conditions.

1. All operations under this grant of special temporary authority are on an unprotected and non-harmful interference basis. Viacom International Inc., must not cause harmful interference to, and shall not claim protection from interference caused to it by, any other lawfully operating station.
2. In the event of any harmful interference under this grant of special temporary authority, Viacom International Inc., must cease operations immediately upon notification of such interference, and must inform the Commission, in writing, immediately of such an event.
3. Any action taken or expense incurred as a result of operations pursuant to this special temporary authority is solely 'at Viacom International Inc.'s risk.
4. Operations are restricted to parameters defined in SES-MOD-20160902-00759.
5. Grant of this authorization is without prejudice to any determination that the Commission may make regarding pending application SES-MOD-20160902-00759.
6. Any action taken or expense incurred as a result of operations pursuant to this special temporary authority is solely at Viacom International Inc.'s risk.
7. This action is issued pursuant to Section 0.261 of the Commission's rules on delegated authority, 47 C.F.R. §0.261, and is effective immediately.

Call Sign E2707 Grant Date 09/07/2016  
(or other identifier)

From 09/08/2016 Term Dates Ths 11/09/2016

Approved: Paul E. Blas

**Exhibit A**  
**Viacom International Inc.**  
**Call Sign E2707**  
**Request for Special Temporary Authority**  
**September 2016**

**Description**

Viacom International, Inc. (“Viacom”), pursuant to Section 25.120(b)(3) of the Commission’s Rules, hereby requests for a period of 60 days, beginning on September 8, 2016, Special Temporary Authority (“STA”) to operate its fixed Earth station antenna under Site ID 1, Antenna ID 1 (“Antenna ID 1”), for Call Sign E2707, with modified equipment and with updated emission designators and updated polarization as requested in its pending modification application, File No. SES-MOD-INTR2016-01994 (Submission ID: IB2016001994) (“Modification Application”).

Until the Modification Application is acted upon, Viacom requests STA on a pre-grant basis to operate Antenna ID 1 as proposed in the Modification Application to allow for the immediate and urgent transmission of cable television content in the public interest. Viacom is already operating C-band antennas at this Hauppauge location under numerous FCC licenses, including Call Sign E2707, which currently permits operation of multiple antennas at the same site. Accordingly, there is no need to delay in granting Viacom permission to operate the modified antenna described herein, on a temporary basis, without prejudice to final action on the Modification Application.

This STA requests the use of a Scientific-Atlanta Model 8016B antenna, which is electrically identical to the originally authorized Scientific-Atlanta Model 8007 antenna, for Antenna ID 1 in accordance with §25.118. This STA further requests that the emission designators for Antenna ID 1 be changed from 36M0F3F to 36M0G7F and that the polarization

for Antenna ID 1 be changed from linear to circular as requested in the Modification Application. The maximum EIRP density of the requested carrier, 36M0G7F, is less than or equal to the maximum EIRP density of the currently licensed power on this Call Sign, and, accordingly, frequency coordination is not required. Radiation hazard analysis for Antenna ID 1 has been carried out in compliance with the methods described in the Office of Engineering and Technology Bulletin No. 65. The results are provided in Exhibit B to this request.

For all of the foregoing reasons, Viacom respectfully requests that the Commission grant this request for STA on a pre-grant basis for a period of 60 days commencing September 8, 2016.
