Special Temporary Authority (STA)

Intelsat License LLC- Inc. is granted a special temporary authority (STA) for 30 days, commencing February 17, 2017, to utilize a transportable 3.9m C-band antenna located in Manhasset, New York to provide communications with Intelsat 907 (S2411) satellite at the 27.5 $^{\circ}$ W.L. orbital location at frequency bands 6382 – 6423 MHz (Earth-to-space) and 4157 – 4198 MHz (space-to-Earth) under the following conditions:

- 1. Operations will not exceed the operational power levels and parameters requested and coordinated.
- 2. The operations must be coordinated with all operators of satellites that use the same frequency bands. All operators of satellites in that path will be provided with an emergency phone number where the licensee can be reached in the event that harmful interference occurs. Currently the 24X7 contact information is: Ph.:(703) 559-7701 –East Coast operations Center (primary); (310) 525-5591 –West Coast Operations Center (back-up). Requests to speak with harry Burnham or Kevin Bell.
- 3. Operations, shall not cause harmful interference to, and shall not claim protection from interference caused to it by any other lawfully operating station and it shall cease transmission(s) immediately upon notice of such interference and notify the FCC in writing.
- 4. Transmitter(s) must be turned off during antenna maintenance to ensure compliance with the FCC-specified safety guidelines for human exposure to radiofrequency radiation in the region between the antenna feed and the reflector. Appropriate measure must also be taken to restrict access to other regions in which the earth station's power flux density levels exceed the specified guidelines.
- 5. Any action taken or expense incurred as a result of operations pursuant to this STA is solely at Intelsat Inc's risk.

This action is issued pursuant to Section 0.261 of the Commission's rules on delegated authority, 47 C.F.R. § 0.261, and is effective upon release.
