Re: Request for Extension of Special Temporary Authority
3.9m C-band Antenna, Manhasset, New York

Dear Ms. Dortch:

Intelsat License LLC (“Intelsat”) herein requests an additional 30 days of Special Temporary Authority (“STA”)¹ to utilize a transportable 3.9m C-band antenna located in Manhasset, New York² to provide communications with Intelsat 907 (S2411) in order to provide emergency backup services. Intelsat expects to file an application to permanently license this antenna.

Intelsat is seeking to continue performing operations in the following frequency bands: 4157-4198 MHz and 6382-6423 MHz.

In further support of this request, Intelsat herein incorporates by reference Exhibits A and B, a coordination report and a radiation hazard analysis report, submitted with its original STA request.

Grant of this STA request will allow Intelsat to continue to provide emergency backup services to a customer and thereby promotes the public interest.

Please direct any questions regarding this STA extension request to the undersigned at (703) 559-6949.

Respectfully submitted,

Cynthia J. Grady
Regulatory Counsel
Intelsat Corporation

cc: Paul Blais

¹ Intelsat has filed its STA request, an FCC Form 159, a \$200.00 filing fee, and this supporting letter electronically via the International Bureau’s Filing System (“IBFS”).
