Re: Request for Further Extension of Special Temporary Authority
2.4m Ku-band Antenna, Hagerstown, Maryland

Dear Ms. Dortch:

Intelsat License LLC (“Intelsat”) herein requests an additional 60 days of Special Temporary Authority (“STA”)¹ previously granted Intelsat to utilize a 2.4m Ku-band antenna located at its Hagerstown, Maryland teleport to provide communications with Intelsat 29e (S2913) in order to test customer equipment.² Intelsat has filed an application to permanent license this antenna.³

Intelsat will continue performing operations in the following frequency bands: 10.70 – 12.75 GHz and 14.00 – 14.50 GHz.

In further support of this extension request, Intelsat incorporates by reference Exhibit A, a radiation hazard analysis report, submitted with its original STA request.

Grant of this STA extension request will allow Intelsat to successfully complete testing of customer equipment. This, in turn, will help provide customer service and thereby promote the public interest.

¹ Intelsat has filed its STA request, an FCC Form 159, a \$200.00 filing fee, and this supporting letter electronically via the International Bureau’s Filing System (“IBFS”).
