Term Dates
From: 8-3-17 To: 10-2-17
Approved: Paul E. Hieb

SES Americom, Inc. ("SES Americom") is granted STA, for 60 days, to operate a 9-meter Ku-band antenna at its new fixed earth station in Somis, California located at 34° 19' 31.2" N.L, 118° 59' 43.6" W.L to provide telemetry, tracking, and control (TT&C) functions for the SES-10 satellite (Call Sign S2950) at orbital location 66.9 degrees W.L. using frequencies 14005.0 MHz (V) and 14499.0 MHz (H and V) (Earth-to-space) and frequencies 11702.5 MHz (H) and 12197.5 MHz (V) (space-to-Earth). Operations will be under the following conditions:

1. TT&C operations with the coordinated power emission carrier 800KF9D in the uplink frequencies and the coordinated emission carrier 300KG7D in the downlink frequencies.
2. Operations, shall not cause harmful interference to, and shall not claim protection from, interference caused to it by any other lawfully operating station and it shall cease transmission(s) immediately upon notice of such interference.
3. In the event of any harmful interference under this grant of STA, SES Americom, E170090 must cease operations immediately upon notification of such interference, and must inform the Commission, in writing, immediately of such an event.
4. Transmitter(s) must be turned off during antenna maintenance to ensure compliance with the FCC-specified safety guidelines for human exposure to radiofrequency radiation in the region between the antenna feed and the reflector. Appropriate measures must also be taken to restrict access to other regions in which the earth station's power flux density levels exceed the specified guidelines.
5. The licensee shall take all necessary measures to ensure that the antenna does not create potential exposure of humans to radiofrequency radiation in excess of the FCC exposure limits defined in 47 CFR 1.1307(b) and 1.1310 wherever such exposures might occur. Measures must be taken to ensure compliance with limits for both occupational/controlled exposure and for general population/uncontrolled exposure, as defined in these rule sections. The FCC's OET Bulletin 65 (available on-line at www.fcc.gov/oet/rfsafety) provides information on predicting exposure levels and on methods for ensuring compliance, including the use of warning and alerting signs and protective equipment for workers.
6. Grant of this authorization is without prejudice to any determination that the Commission may make regarding SES Americom's pending application IBFS File No. SES-LIC-20170407-00375.
7. Any action taken or expense incurred as a result of operations pursuant to this STA is solely at SES Americom's risk.

This action is issued pursuant to Section 0.261 of the Commission's rules on delegated authority, 47 C.F.R. §0.261, and is effective immediately.

FCC NOTICE REQUIRED BY THE PAPERWORK REDUCTION ACT

The public reporting for this collection of information is estimated to average 2 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the required data, and completing and reviewing the collection of information. If you have any comments on this burden estimate, or how we can improve the collection and reduce the burden it causes you, please write to the Federal Communications Commission, AMD-PERM, Paperwork Reduction Project (3060-0678), Washington, DC 20554. We will also accept your comments regarding the Paperwork Reduction Act aspects of this collection via the Internet if you send them to PRA@fcc.gov. PLEASE DO NOT SEND COMPLETED FORMS TO THIS ADDRESS.

Remember - You are not required to respond to a collection of information sponsored by the Federal government, and the government may not conduct or sponsor this collection, unless it displays a currently valid OMB control number or if we fail to provide you with this notice. This collection has been assigned an OMB control number of 3060-0678.

THE FOREGOING NOTICE IS REQUIRED BY THE PAPERWORK REDUCTION ACT OF 1995, PUBLIC LAW 104-13, OCTOBER 1, 1995, 44 U.S.C. SECTION 3507.

12. Description

SES Americom, Inc. requests to extend its special temporary authority to operate the Ku-band earth station located in its South Mountain, CA teleport (E170090) described in file number SES-LIC-20170407-00375 for an additional 60 days to provide TT&C and communications service for SES-10, which is located at 66.9 W.L., pending action on the license application. See attached narrative.

STA Request

SES Americom, Inc. ("SES") respectfully requests an extension of its special temporary authority ("STA") (granted under File No. SES-STA-20170412-00397) for an additional 60 days to continue operating the Ku-band earth station (E170090) described in file number SES-LIC-20170407-00375 prior to action on that application. The antenna is currently being used to provide TT&C and communications service for SES-10, which is located at 66.9° W.L.

The original STA expired on July 11, 2017, and due to an oversight a request to extend the authority was not timely filed. SES regrets this oversight and seeks to obtain additional STA to continue operating the earth station while the underlying application is pending. The earth station operations are critical for the safe operation of SES-10 and therefore it is in the public interest to extend the STA until action is taken on the underlying application.
