Intelsat License, LLC, is granted a special temporary authority for 30 days, beginning September 18, 2017, to operate its fixed earth station in Hagerstown, Maryland, call-sign E140121, to provide telemetry, tracking, and command ("TT&C") services for Amazonas-5 satellite licensed by Brazil during in-orbit testing ("IOT") at 58.2° W.L.; during its drift from 58.2° W.L. to its final location at 61° W.L. until handoff, using the following center frequencies: 13999.50 MHz and 14499.50 MHz (Linear H, V, LHCP) (Earth-to-space), and 11701 MHz and 12202.25 MHz (Linear H, V, RHCP) (space-to-Earth) under the following conditions:

1. All operations must be within the coordinated emission and power limits.
2. During the drift to the satellite's permanent orbital location 61° W.L., Intelsat will coordinate with operators of co-frequency satellites in the drift path.
3. All operators of satellites will be provided with an emergency phone number where the licensee can be reached in the event that harmful interference occurs, Currently the 24x7 contact information for the Amazonas-5 mission is as follows: Ph.: (703) 559-7701 - East Coast Operations Center (primary); (310) 525-5591 - West Coast Operations Center (back-up). Request to speak with Harry Burnham or Kevin Bell.
4. All operations under this grant of special temporary authority shall be on an unprotected and non-harmful interference basis. Intelsat's E140121 shall not cause harmful interference to, and shall not claim protection from interference caused to it by, any other lawfully operating radio communication system.
5. In the event of any harmful interference under this grant of special temporary authority, Intelsat License LLC, E140121, must cease operations immediately upon notification of such interference and must inform the Commission, in writing, immediately of such an event.
6. Grant of this authorization is without prejudice to any determination that the Commission may make regarding pending or future Intelsat License LLC applications.
7. Any action taken or expense incurred as a result of operations pursuant to this special temporary authority is solely at Intelsat License LLC's risk.
8. This grant is issued pursuant to Section 0.261 of the Commission's rules on delegated authority, 47 C.F.R. § 0.261, and is effective upon release.

INTELSAT.

Re: Request for Special Temporary Authority
Hagerstown, Maryland Earth Station E140121

Dear Ms. Dortch:

Intelsat License LLC ("Intelsat") herein requests a grant of Special Temporary Authority ("STA")¹ for 30 days, commencing September 18, 2017, to use its Hagerstown, Maryland Ku-band earth station—call sign E140121—to provide telemetry, tracking, and command ("TT&C") services for the Amazonas-5 satellite during in-orbit testing ("IOT") at 58.2° W.L., during its drift from 58.2° W.L. to its final location at 61.0° W.L., and at 61.0° W.L. until handoff. Amazonas-5 is expected to be launched on September 9, 2017.² Intelsat expects the IOT and drift to last approximately 46 days.

The proposed operations will be performed at the following frequencies: 13999.5 MHz and 14499.5 MHz (Linear H, V, LHCP) in the uplink; and 12202.25 MHz and 11701.0 MHz (Linear H, V, RHCP) in the downlink. The proposed operations will be coordinated with all operators of satellites that use the same frequency bands and are in the drift path or are potentially affected by these operations at the IOT location.³ All operators of potentially affected satellites will be provided with an emergency phone number where the licensee can be reached in the event that harmful interference occurs. In the extremely unlikely event that harmful interference should occur due to transmissions to or from its earth station, Intelsat will take all reasonable steps to eliminate the interference.

The 24x7 contact information for the Amazonas-5 mission is as follows:

Ph.: (703) 559-7701 – East Coast Operations Center (primary)
(310) 525-5591 – West Coast Operations Center (back-up)

Request to speak with Harry Burnham or Kevin Bell.

In further support of this request, Intelsat herewith attaches Exhibits A and B, which contain a 13 GHz

¹ Intelsat has filed its STA request, an FCC Form 159, a \$200.00 filing fee, and this supporting letter electronically via the International Bureau's Filing System ("IBFS").

² Intelsat understands Amazonas-5 is licensed by Brazil.

³ SSL, the manager of the Amazonas-5 LEOP mission, will handle the coordination.

Ms. Marlene H. Dortch

report and a waiver request. In the extremely unlikely event that harmful interference should occur due to transmissions to or from its earth station, Intelsat will take all reasonable steps to eliminate the interference.

Grant of this STA request will allow Intelsat to help test the Amazonas-5 satellite. This, in turn, will help provide additional capacity from the 61.0° W.L. orbital location and thereby promotes the public interest.

Please direct any questions regarding this STA request to the undersigned at (703) 559-6949.

Respectfully submitted,

A handwritten signature in cursive script that reads "Cynthia J. Grady".
