ISAT US, Inc. (ISAT US) is granted extension STA for 30 days to conduct testing of one EM Solutions Cobra ("EM Cobra") antenna, manufactured by EM Solutions, at Chantilly, Virginia (38° 53' 32.26" N.L./077° 26' 38.62" W.L.). The testing of antenna will be to operate with the Inmarsat 5 F2 satellite ("I5F2") located at 55° W.L. in the 29.5-30.0 GHz (Earth-to-space) and 19.7-20.2 GHz (space-to-Earth) frequency bands under the following conditions:

1. Operations under STA will be in compliance with Section 25.138 of the Commission's rules, 47 C.F.R. § 25.138, and will be operated through the Lino Lakes Satellite Access station authorized under E120072, SES-LIC-20120426-00397 and monitored by the Inmarsat Network Operations Center (NOC).
2. All operations by ISAT US shall be on an unprotected basis and shall not claim protection from interference caused to it by any other lawfully operating station.
3. In the event that any harmful interference is caused as a result of STA operation, ISAT US shall cease operations immediately upon notification of such an event, and shall inform the Commission immediately, in writing, of the event.
4. Any action taken or expense incurred as a result of operations pursuant to this STA is solely at ISAT US's own risks.
5. The licensee shall take all necessary measures to ensure that the antenna does not create potential exposure of humans to radiofrequency radiation in excess of the FCC exposure limits defined in 47 CFR 1.1307(b) and 1.1310 wherever such exposures might occur. Measures must be taken to ensure compliance with limits for both occupational/controlled exposure and for general population/uncontrolled exposure, as defined in these rule sections. Compliance can be accomplished in most cases by appropriate restrictions, such as fencing. Requirements for restrictions can be determined by predictions based on calculations, modeling, or by field measurements. The FCC's OET Bulletin 65 (available on-line at www.fcc.gov/oet/rfsafety) provides information on predicting exposure levels and on methods for ensuring compliance, including the use of warning and alerting signs and protective equipment for workers.
6. Grant of this authorization is without prejudice to any determination that the Commission may make regarding ISAT US's pending FCC application IBFS File No. SES-MOD-20170817-00928.
7. Operations during the period of September 29, 2017 to the grant of this authorization were authorized pursuant to Section 1.62 of the Commission's rules, 47 C.F.R. § 1.62.
8. This action is issued pursuant to Section 0.261 of the Commission's rules on delegated authority, 47 C.F.R. § 0.261, and is effective immediately.

Exhibit A

REQUEST FOR RENEWAL OF SPECIAL TEMPORARY AUTHORITY (Response to Question 12, FCC Form)

I. DESCRIPTION OF STA REQUEST TO TEST ONE MARITIME TERMINAL

ISAT US, Inc. ("ISAT US") hereby requests the renewal for a thirty-day period of its current special temporary authority ("STA") under IBFS File No. SES-STA-20170822-00938 to operate an EM Solutions Cobra model maritime terminal ("EM Cobra") while ISAT's application for modification of license remains pending under IBFS File No. SES-MOD-20170817-00928, whose technical specifications are incorporated by reference.

The earth station is located at the Inmarsat facility in Chantilly, VA. The operations are to test and demonstrate the use of this new maritime terminal. ISAT US is already licensed by the Commission to operate a set of fixed and maritime earth stations in the 19.7-20.2 GHz and 29.5-30.0 GHz bands.¹ The EM Cobra will operate with the Inmarsat Global Xpress I5F2 satellite from the 55° W.L. orbital location and the Lino Lakes Satellite Access Station, which have both been authorized for U.S. market access.²

ISAT US will be responsible for all technical aspects of the system during the testing and demonstration. The user terminal operations in the spectrum requested will be closely monitored by the Inmarsat Network Operations Center (NOC) and the engineering team associated with the demonstration. Additionally ISAT US requests to operate on a non-interference and non-protected basis.

Description of Operations

This STA will allow testing and demonstration of a new terminal that will facilitate further deployment of broadband communications to Inmarsat customers. The terminal will be operated from the Inmarsat Chantilly facility in VA for 30 days commencing on 28 August 2017. Operations will be conducted within a 1 mile radius of the following location: Chantilly, VA Latitude = 38° 53' 32.2656" Longitude = 77° 26' 38.6232".

The ISAT US Point of Contact 24/7 during the STA is Inmarsat Network Control in London, England at 011 44 207 728 1616.

II. RENEWAL OF THE STA WILL SERVE THE PUBLIC INTEREST

Renewal of the STA will serve the public interest, convenience and necessity because it will enable ISAT US to continue testing and demonstration of a new terminal using the I5F2 spacecraft, within technical parameters consistent with the parameters filed in IBFS File No. SES-MOD-20170817-00928, without creating any risk of harmful interference. ISAT US respectfully requests renewal of its STA for a period of 30 days.

FCC NOTICE REQUIRED BY THE PAPERWORK REDUCTION ACT

The public reporting for this collection of information is estimated to average 2 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the required data, and completing and reviewing the collection of information. If you have any comments on this burden estimate, or how we can improve the collection and reduce the burden it causes you, please write to the Federal Communications Commission, AMD-PERM, Paperwork Reduction Project (3060-0678), Washington, DC 20554. We will also accept your comments regarding the Paperwork Reduction Act aspects of this collection via the Internet if you send them to PRA@fcc.gov. PLEASE DO NOT SEND COMPLETED FORMS TO THIS ADDRESS.

Remember – You are not required to respond to a collection of information sponsored by the Federal government, and the government may not conduct or sponsor this collection, unless it displays a currently valid OMB control number or if we fail to provide you with this notice. This collection has been assigned an OMB control number of 3060-0678.

THE FOREGOING NOTICE IS REQUIRED BY THE PAPERWORK REDUCTION ACT OF 1995, PUBLIC LAW 104-13, OCTOBER 1, 1995, 44 U.S.C. SECTION 3507.
