Re: Request for Further Extension of Special Temporary Authority
18-inch Ku-band Vehicle-mounted Earth Station Antenna
Call Sign E170121

Dear Ms. Dortch:

Intelsat License LLC (“Intelsat”) herein requests an additional 30 days of Special Temporary Authority (“STA”)¹ previously granted Intelsat to utilize a vehicle-mounted 18-inch Rantec Airborne SATCOM terminal² to communicate with Intelsat 29e (S2913) while the vehicle is in motion in Maryland, Virginia, North Carolina, South Carolina, Georgia, and Florida in order to test a new product. All testing will continue to occur on the ground and will continue to be performed in the following frequency bands: 14.0-14.5 GHz and 11.7-12.2 GHz.

This antenna is the subject of a pending Intelsat Earth Stations Aboard Aircraft application and, as noted therein, has previously been authorized by the Federal Communications Commission (“Commission”) for various experimental operations.³

In support of this further extension request, Intelsat incorporates by reference, Exhibit A, a radiation hazard analysis report submitted with its original STA request. Additionally, Intelsat will not operate within 125 km of any TDRSS sites. In order to minimize any potential interference, operations under this STA extension will continue to conform to the Commission’s Part 25 Vehicle-Mounted Earth Stations rules.

¹ Intelsat has filed its STA request, an FCC Form 159, a \$200.00 filing fee and this supporting letter electronically via the International Bureau’s Filing System (“IBFS”).
