Re: Request for Extension of Special Temporary Authority
Hagerstown, Maryland Earth Station E000296

Dear Ms. Dortch:

Intelsat License LLC (“Intelsat”) herein requests an additional 60 days of Special Temporary Authority (“STA”)¹ previously granted Intelsat to use its Hagerstown, Maryland Ku-band earth station—call sign E000296—to provide telemetry, tracking, and command (“TT&C”) services² to Intelsat 903 (call sign S2407) at its permanent location of 31.5° W.L.³ Intelsat has a pending application to permanently modify its E000296 license to support Intelsat 903 TT&C services at 31.5° W.L.⁴

The Intelsat 903 TT&C operations will continue to be performed at the following frequencies: 6173.7 MHz and 6176.3 MHz in the uplink and 3947.5 MHz, 3948.0 MHz, 3952.0 MHz, and 3952.5 MHz in the downlink.

In further support of this extension request, Intelsat incorporates by reference Exhibit A, which includes technical information that demonstrates that the operation of the earth station will be compatible with its electromagnetic environment and will not cause harmful interference into any lawfully operating terrestrial facility.

The Intelsat 903 operations will continue to be consistent with Intelsat’s coordination agreements for the nominal 31.5° W.L. orbital location. In the unlikely event that harmful interference occurs, Intelsat will take all necessary steps to eliminate the interference.

¹ Intelsat has filed its STA request, an FCC Form 159, a \$200.00 filing fee, and this supporting letter electronically via the International Bureau’s Filing System (“IBFS”).
