Approved: Paul E. Hines

Intelsat License LLC ("Intelsat") is granted special temporary authority (STA) for 180 days, beginning January 24, 2018, to operate its Riverside, CA earth station with SES-14(S2974) satellite to provide Launch and early orbit phase ("LEOP") services on frequencies 14000.5 MHz, 14002.0 MHz, 14003.5 MHz, 14495.0 MHz, 14496.5 MHz, 14498.0 MHz, and 14499.5 MHz (Earth-to-space) and 10953.0 MHz, and 12198.0 MHz (space-to-Earth) to provide additional capacity from the 47.5° W.L. orbital location under the following conditions:

1. All operations under this grant of STA shall be on an unprotected and noninterference basis and Intelsat is obliged to comply with the applicable laws, regulations, rules, and licensing procedures of that country.
2. All operators of satellites will be provided with an emergency phone number where the licensee can be reached in the event that harmful interference occurs; Currently the 24x7 contact information for Intelsat 16 mission is as follows: Ph.: (703)559-7701-East Coast Operations Center (primary), (310)525-5591-West Coast Operations Center (back-up). Request to speak with Harry Burnham or Kevin Bell.
3. Intelsat will maintain full operational control with SES-14 (S2974) at all times.
4. Intelsat will maintain SES-14 (S2974) with an east-west longitudinal station-keeping tolerance of +/- 0.05 degree at 47.5° W.L. orbital location.
5. In the event of any harmful interference as a result of operations under this grant of STA, Intelsat shall cease operations immediately upon notification of such interference and shall immediately inform the Commission, in writing, of such an event.
6. Any action taken or expense incurred as a result of operations pursuant to this STA is solely at Intelsat.
7. Pursuant to footnote US342 of the United States Table of Frequency Allocation, 47 CFR § 2.106, services operating in the 14.47-14.50 GHz band shall take all practicable steps to protect the radio astronomy service from harmful interference.
8. Grant of this authorization is without prejudice to any determination that the Commission may make regarding pending or future Intelsat applications.
9. All operations must be within the relevant requested operational parameters in IBFS File No. SAT-MPL-20170606-00083.

This grant is issued pursuant to Section 0.261 of the Commission's rules on delegated authority, 47 C.F.R. § 0.261, and is effective upon release.

Re: Request for Special Temporary Authority
Riverside, California Earth Station E060384

Dear Ms. Dortch:

Intelsat License LLC (“Intelsat”) herein requests a grant of Special Temporary Authority (“STA”)¹ for 180 days, commencing January 23, 2018, to use its Riverside, California Ku-band earth station—call sign E060384—to provide launch and early orbit phase (“LEOP”) services for the SES-14 satellite. SES-14 is expected to be launched on January 23, 2018.² Intelsat expects the LEOP period to last approximately 180 days.³

The SES-14 LEOP operations will be performed at the following frequencies: 14000.5 MHz, 14002.0 MHz, 14003.5 MHz, 14495.0 MHz, 14496.5 MHz, 14498.0 MHz, and 14499.5 MHz (CP) in the uplink; and 10953.0 MHz and 12198.0 MHz (CP) in the downlink. The LEOP operations will be coordinated with all operators of satellites that use the same frequency bands and are in the LEOP path.⁴ All operators of satellites in that path will be provided with an emergency phone number where the licensee can be reached in the event that harmful interference occurs.

The 24x7 contact information for the SES-14 LEOP mission is as follows:

Ph.: (703) 559-7701 – East Coast Operations Center (primary)
(310) 525-5591 – West Coast Operations Center (back-up)

Request to speak with Harry Burnham or Kevin Bell.

¹ Intelsat has filed its STA request, an FCC Form 159, a \$200.00 filing fee, and this supporting letter electronically via the International Bureau’s Filing System (“IBFS”).

² Both the in-orbit testing location and final orbital location for SES-14 will be 47.5° W.L. The satellite has been granted U.S. market access. *See Satellite Policy Branch Information, Actions Taken*, Report No. SAT-01266, File No. SAT-MPL-20170606-00083 (Sept. 8, 2017) (Public Notice).

³ Intelsat is seeking authority for 180 days to accommodate the longer orbit-raising time period required for an electric propulsion satellite.

⁴ Airbus, the manager of the SES-14 LEOP mission, will handle the coordination.

Ms. Marlene H. Dortch
November 20, 2017
Page 2

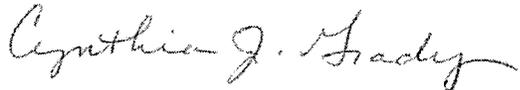

In the extremely unlikely event that harmful interference should occur due to transmissions to or from its earth station, Intelsat will take all reasonable steps to eliminate the interference.

Finally, Intelsat clarifies that during the SES-14 LEOP mission, Airbus will serve as the mission manager. Airbus will build and send the commands to the Intelsat antenna, which will process and execute the commands. Telemetry received by Intelsat will be forwarded to Airbus. Intelsat will perform the ranging sessions by sending a tone to the spacecraft periodically. Intelsat will remain in control of the baseband unit, RF equipment, and antenna.

Grant of this STA request will allow Intelsat to help launch the SES-14 satellite. This, in turn, will help provide additional capacity from the 47.5° W.L. orbital location and thereby promotes the public interest.

Please direct any questions regarding this STA request to the undersigned at (703) 559-6949.

Respectfully submitted,

Cynthia J. Grady
Regulatory Counsel
Intelsat Corporation
