Approved: Paul E. Jones

Applicant: MTN License Corp
Call Sign: E050308
File No.: SES-STA-20171206-01310
Special Temporary Authority

MTN License Corp is granted special temporary authority for 60-days period, beginning Dec 12, 2017, to operate an earth station in Fairmont, West Virginia (Call Sign E050308) with Permitted List satellites in the 5925-6300 MHz and 6332-6425 MHz (Earth-to-space) and 3700-4200 MHz (space-to-Earth) frequency bands to support the satellite connectivity services for the Advanced Weather Interactive Processing System, an important component of the National Weather Service's provision of critical weather data, forecasts and warnings to the U.S. public under the following conditions:

1. This grant does not prejudice the pending FCC action on the pending IBFS file number SES-ASG-20171206-01311.
2. MTN License Corp shall not cause harmful interference to, and shall not claim protection from, interference caused to it by any other lawfully operating station and it shall cease transmission(s) immediately upon notice of such interference.
3. In the event that there is a report of interference, MTN License Corp must immediately terminate transmissions and notify the FCC in writing.
4. Any action taken or expense incurred as a result of operations pursuant to this special temporary authority is solely at MTN License Corp risk.
5. MTN License Corp shall take all reasonable and customary measures to ensure that the earth station does not create a potential for harmful non-ionizing radiation to persons who may be in the vicinity of the earth station when it is in operation. The earth station operator shall be responsible for assuring that individuals do not stray into the regions around the earth station where there is a potential for exceeding the maximum permissible exposure limits.
6. This action is issued pursuant to Section 0.261 of the Commission's rules on delegated authority, 47 C.F.R. § 0.261, and is effective immediately.

FCC NOTICE REQUIRED BY THE PAPERWORK REDUCTION ACT

The public reporting for this collection of information is estimated to average 2 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the required data, and completing and reviewing the collection of information. If you have any comments on this burden estimate, or how we can improve the collection and reduce the burden it causes you, please write to the Federal Communications Commission, AMD-PERM, Paperwork Reduction Project (3060-0678), Washington, DC 20554. We will also accept your comments regarding the Paperwork Reduction Act aspects of this collection via the Internet if you send them to PRA@fcc.gov. PLEASE DO NOT SEND COMPLETED FORMS TO THIS ADDRESS.

Remember - You are not required to respond to a collection of information sponsored by the Federal government, and the government may not conduct or sponsor this collection, unless it displays a currently valid OMB control number or if we fail to provide you with this notice. This collection has been assigned an OMB control number of 3060-0678.

THE FOREGOING NOTICE IS REQUIRED BY THE PAPERWORK REDUCTION ACT OF 1995, PUBLIC LAW 104-13, OCTOBER 1, 1995, 44 U.S.C. SECTION 3507.

REQUEST FOR SPECIAL TEMPORARY AUTHORITY

MTN License Corp. ("MTN") hereby requests special temporary authority ("STA") in connection with the contemporaneously-filed application for assignment of the C-band satellite Earth station license at Fairmont, West Virginia (Call Sign E050308) from Globecom License Sub LLC ("Globecom") to MTN ("Assignment Application"). MTN requires authority to assume control and operation of the facilities currently licensed to Globecom no later than Tuesday, December 12, 2017, prior to final FCC action on the pending Assignment Application, and has filed this application in compliance with Section 25.120(a) of the FCC's Rules with respect to that action date. However, inasmuch as there is a possibility of a temporary FCC employee furlough due to a lapse in agency funding commencing at 11:59 pm on Friday, December 8, 2017, MTN respectfully requests action before close of business on that date, if possible, and has specified December 8, 2017 as the "Requested Use Prior Date" on Form 312STA.

The requested STA is necessary because MTN is assuming the operational role previously held by Globecom as a subcontractor to Raytheon Company for provision of satellite connectivity services for the Advanced Weather Interactive Processing System, an important component of the National Weather Service's provision of critical weather data, forecasts and warnings to the U.S. public. Accordingly, immediate operation of the Fairmont, West Virginia facility by MTN is critical to this public safety mission and will maximize the public benefit of the licensed Earth station.

MTN is a long-term FCC licensee, and the Commission has previously reviewed and approved its qualifications to operate FCC-licensed satellite Earth station facilities. MTN therefore is fully qualified to be the licensee of an additional satellite Earth station and has every expectation that the pending Assignment Application will be granted in due course. Accordingly, there is no need for delay in granting MTN permission to operate an additional Earth station, on a temporary basis, without prejudice to final action on the pending Assignment Application.

MTN seeks expedited grant of an STA to permit it to operate the subject facilities, and, as detailed above, respectfully requests that action on this matter be completed by Friday, December 8, 2017, if possible, providing MTN with the assurance that it will be able to commence operations as anticipated on December 12, 2017. Consistent with the FCC's Rules concerning authority for use prior to grant, MTN requests an STA for a period of up to 60 days. *See* 47 C.F.R. §25.120(b)(3). The parties to the underlying Assignment Application anticipate that it will be granted during the effective period of the requested STA. MTN understands that any grant of this application is without prejudice to ultimate FCC action on the Assignment Application.
