

Westar Satellite Services files this Supplement to SES-STA-20180813-02293.

We are supplying a letter from ComSearch indicating that this call sign has been under their continuous protection.

We are also requesting a 90 day duration on the STA, to cover time for the application SES-LIC-20180813-02286 to be acted upon. (The LIC file will also be attached to this Supplement). We are planning on a November 01 start of services date.

Finally, we are looking to communicate with Satellite AMC7, on the following frequencies:

Transmit – 5850.0000Mhz to 6425.0000Mhz, on both Horizontal and Vertical poles

Receive – 3625.0000Mhz to 4250.0000Mhz on both Horizontal and Vertical poles.

Westar Satellite Services will be providing TT&C services to AMC7 for SES / New Skies Communications on this satellite.

A handwritten signature in black ink that reads "Charles Cole".
