Maris Developments is granted a special temporary authority for 30 days, beginning November 07, 2018, to operate an earth station located in Boardman, Oregon for communications with DigitalGlobe Constellations of Non-Geostationary Orbit ("NGSO") Earth Exploration Satellite Service ("EESS") satellites in the 402.0 – 403.0 MHz, 432.0 – 438.0, 449.75 – 451.25 MHz and 2025 -2110 MHz frequency bands (Earth-to-space) and 401.0 – 403.0 MHz and 8025 -8400 MHz bands (space-to-Earth) and under the following conditions:

1. All operations under this grant of special temporary authority shall be on an unprotected and non-harmful interference basis. Maris Developments shall not cause harmful interference to, and shall not claim protection from interference caused to it by, any other lawfully operating radio communication system.
2. In the event of any harmful interference under this grant of special temporary authority, Maris Developments must cease operations immediately upon notification of such interference, and must inform the Commission, in writing, immediately of such an event.
3. Operations in the 449.75-451.25 MHz frequency band shall be limited to the 450.185-450.215 MHz band in accordance with the pre-coordination agreement between NASA and DigitalGlobe.
