Re: Request for Special Temporary Authority to Operate a 1 meter Ku-band Antenna

Dear Ms. Dortch:

Intelsat License LLC (“Intelsat”) herein requests a grant of Special Temporary Authority (“STA”)<sup>1</sup> for 60 days, beginning March 20, 2019, to allow Intelsat to utilize a transportable 1 meter Ku-band antenna in the contiguous-lower 48 states to communicate with Intelsat satellites in order to provide customer demonstrations.<sup>2</sup> Intelsat intends to file an application seeking permanent authority for this antenna.

The proposed communication services will be performed in the following frequency bands: 14.0-14.5 GHz (Earth-to-space), and 11.7-12.2 GHz (space-to-Earth). The proposed operations will be consistent with Intelsat’s coordination agreements. The 24x7 contact information for the proposed operations is as follows:

Ph.: (703) 559-7701 – East Coast Operations Center (primary)  
(310) 525-5591 – West Coast Operations Center (back-up)

Request to speak with Harry Burnham or Kevin Bell.

In support of this request, Intelsat is attaching a radiation hazard report as Exhibit A.

Grant of this STA request services the public interest by enabling Intelsat to provide customer demonstrations for a new service.

---

<sup>1</sup> Intelsat has filed its STA request, an FCC Form 159, a \$210.00 filing fee, and this supporting letter electronically via the International Bureau’s Filing System (“IBFS”).

<sup>2</sup> Intelsat is simultaneously filing an identical request for the use of a second, identical antenna.
