Approved: Paul E. Black

WorldVu Satellite Limited (OneWeb) is granted special temporary authority for 60 days, beginning October 14, 2019, to operate its Clewiston, FL gateway earth station with in-orbit OneWeb satellites (S2963) in the 27.5-29.1 GHz, 29.5-30.0 GHz (Earth-to-space) and the 17.8-18.6 GHz, 18.8-19.3 GHz (space-to-Earth) frequency bands under the following conditions.

1. Operations are limited to the values requested in OneWeb's pending application, IBFS File number SES-LIC-20180727-02075, and are subject to the terms and conditions of OneWeb's U.S. market access, *WorldVu Satellites Limited, Petition for a Declaratory Ruling Granting Access to the U.S. Market for the OneWeb NGSO FSS System*, Order and Declaratory Ruling, 32 FCC Rcd 5366 (2017) (OneWeb U.S. Market Access Grant).
2. All operations shall be on an unprotected and non-harmful interference basis. OneWeb shall not cause harmful interference to, and shall not claim protection from, interference caused to it by any other lawfully operating station and it shall cease transmission(s) immediately upon notice of such interference and must inform the Commission, in writing, immediately of such an event.
3. OneWeb is reminded in particular of its obligation to comply with condition 23h of its Market Access Grant: In the 27.5-28.6 GHz and 29.5-30 GHz (Earth-to-space) frequency bands transmission is permitted at levels up to the applicable equivalent power flux-density requirements of Article 22 of the ITU Radio Regulations.
4. OneWeb must be available to respond if harmful interference occurs. Currently the 24x7 contact information is Eric Graham (+1 571-399-8893) egraham@oneweb.net or Mike Lindsay (+44 7970.673.791).
5. Grant of this STA is without prejudice to any determination that the Commission may make regarding pending or future OneWeb applications.
6. Any action taken or expense incurred as a result of operations pursuant to this STA is solely at OneWeb's risk.

This action is issued pursuant to Section 0.261 of the Commission's rules on delegated authority, 47 C.F.R. §0.261, and is effective upon release.

WILLFUL FALSE STATEMENTS MADE ON THIS FORM ARE PUNISHABLE BY FINE AND / OR IMPRISONMENT (U.S. Code, Title 18, Section 1001), AND/OR REVOCATION OF ANY STATION AUTHORIZATION (U.S. Code, Title 47, Section 312(a)(1)), AND/OR FORFEITURE (U.S. Code, Title 47, Section 503).	

FCC NOTICE REQUIRED BY THE PAPERWORK REDUCTION ACT

The public reporting for this collection of information is estimated to average 2 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the required data, and completing and reviewing the collection of information. If you have any comments on this burden estimate, or how we can improve the collection and reduce the burden it causes you, please write to the Federal Communications Commission, AMD-PERM, Paperwork Reduction Project (3060-0678), Washington, DC 20554. We will also accept your comments regarding the Paperwork Reduction Act aspects of this collection via the Internet if you send them to PRA@fcc.gov. PLEASE DO NOT SEND COMPLETED FORMS TO THIS ADDRESS.

Remember – You are not required to respond to a collection of information sponsored by the Federal government, and the government may not conduct or sponsor this collection, unless it displays a currently valid OMB control number or if we fail to provide you with this notice. This collection has been assigned an OMB control number of 3060-0678.

THE FOREGOING NOTICE IS REQUIRED BY THE PAPERWORK REDUCTION ACT OF 1995, PUBLIC LAW 104-13, OCTOBER 1, 1995, 44 U.S.C. SECTION 3507.

REQUEST FOR SPECIAL TEMPORARY AUTHORIZATION

Pursuant to Section 25.120 of the Federal Communications Commission’s (“Commission”) rules, WorldVu Satellites Limited (“OneWeb”) respectfully requests special temporary authority (“STA”) for a period of up to 60 days (commencing on October 14, 2019) to operate its proposed Clewiston, FL Ka-band gateway earth station to communicate with in-orbit OneWeb satellites launched pursuant to OneWeb’s grant of U.S. market access.¹

Background

On July 27, 2018, OneWeb filed an application to operate a Ka-band gateway earth station consisting of thirteen antennas at a location in Clewiston, FL (“Clewiston SNP Application”).² The Clewiston gateway facility will be a critical part of OneWeb’s network infrastructure as it prepares to commence commercial service. Following the successful launch of the first six satellites in OneWeb’s non-geostationary orbit, fixed-satellite service (“NGSO FSS”) system in February 2019 and the July 2019 opening of OneWeb’s state-of-the-art satellite manufacturing facility in Florida, inauguration of OneWeb’s gateway earth stations will drive OneWeb’s ability to deliver innovative connectivity solutions to U.S. consumers.

As discussed above, the Clewiston SNP Application was filed on July 27, 2018.³ No party filed timely comments or objections to the grant of the Clewiston SNP Application. However, the Clewiston SNP Application remains pending at the Commission after over thirteen months.

Grant of STA Will Serve the Public Interest

Grant of STA to operate the Clewiston gateway will serve the public interest and the U.S. consumer by enabling OneWeb to take critical steps towards delivering its inevitable, innovative connectivity service across the entire United States. As noted above, the Clewiston SNP Application has been pending at the Commission for over thirteen months. OneWeb launched its first six satellites on February 27, 2019, approximately seven months ago.⁴ The grant of STA to

¹ See 47 C.F.R. § 25.120. See also *WorldVu Satellites Limited, Petition for a Declaratory Ruling Granting Access to the U.S. Market for the OneWeb NGSO FSS System*, Order and Declaratory Ruling, 32 FCC Rcd 5366 (2017) (“OneWeb Market Access Grant”).

² WorldVu Satellites Limited, Earth Station License Application, IBFS File No. SES-LIC-20180727-02075 (filed Jul. 27, 2018). To the extent necessary, all technical and operational information for the Clewiston gateway facility is incorporated herein.

³ *Id.*

⁴ See, e.g., Jackie Wattles, *OneWeb Launches First Batch of Internet Satellites*, CNN (Feb. 28, 2019, 7:02 PM), <https://www.cnn.com/2019/02/27/tech/oneweb-internet-satellite-launch/index.html>.

enable operation of the Clewiston gateway will serve the public interest by allowing OneWeb to implement network testing that is crucial for OneWeb's eventual deployment of service to U.S. consumers. Moreover, grant of STA to cover these kinds of operations is consistent with recent Commission actions to facilitate the use of gateway facilities for NGSO operators.⁵

Operation of the Clewiston gateway under STA would be on a non-interference basis. As submitted in the original application and in a supplemental filing, OneWeb has completed the required terrestrial coordination for the Clewiston SNP site.⁶ Additionally, OneWeb has completed coordination with the U.S. Department of Defense for the Clewiston SNP site, as required in OneWeb's grant of U.S. market access.⁷ OneWeb has also certified that its operations will comply with applicable power flux-density and equivalent power flux-density limits as set forth by the ITU and the Commission's rules.⁸ Beyond these already-completed coordination agreements and certifications, operation of the Clewiston SNP site on a non-interference basis under STA would ensure that there are no impacts to other spectrum users.

Conclusion

For the foregoing reasons, OneWeb respectfully requests STA for a period of up to 60 days, commencing on October 14, 2019.

⁵ See, e.g., *SpaceX Services, Inc., Request for Special Temporary Authority*, IBFS File No. SES-STA-20190410-00518 (May 9, 2019).
