SES Americom, Inc. ("SES Americom") is granted STA, for 60 days, beginning November 14, 2019, to operate 13.1-meter Ku-band antenna at its new fixed earth station in MOUNT AIRY, MD to provide telemetry, tracking, and control (TT&C) functions for the ASTRA 3A spacecraft using Ku-band frequencies as the satellite drifts from 47 W.L. to 86.8 W.L. and to support operations at that orbital location on center frequencies 14499 MHz (Earth-to-space), and 11450.25 MHz and 11699.50 MHz (space-to-Earth). Operations will be under the following conditions:

1. EIRP density of TT&C transmissions are limited to the limits authorized in granted of IBFS File No SES-MFS-2016062400607 which is the current authorization for this earth station.

2. Operations, shall not cause harmful interference to, and shall not claim protection from, interference caused to it by any other lawfully operating station and it shall cease transmission(s) immediately upon notice of such interference.

3. In the event of any harmful interference under this grant of STA, SES Americom must cease operations immediately upon notification of such interference, and must inform the Commission, in writing, immediately of such an event.

4. Transmitter(s) must be turned off during antenna maintenance to ensure compliance with the FCC-specified safety guidelines for human exposure to radiofrequency radiation in the region between the antenna feed and the reflector. Appropriate measures must also be taken to restrict access to other regions in which the earth station's power flux density levels exceed the specified guidelines.

5. The licensee shall take all necessary measures to ensure that the antenna does not create potential exposure of humans to radiofrequency radiation in excess of the FCC exposure limits defined in 47 CFR 1.1307(b) and 1.1310 wherever such exposures might occur. Measures must be taken to ensure compliance with limits for both occupational/controlled exposure and for general population/uncontrolled exposure, as defined in these rule sections. The FCC's OET Bulletin 65 (available on-line at www.fcc.gov/oet/rfsafety) provides information on predicting exposure levels and on methods for ensuring compliance, including the use of warning and alerting signs and protective equipment for workers.

6. Grant of this authorization is without prejudice to any determination that the Commission may make regarding SES Americom's pending application IBFS File No. SES-LIC-20191105-01403.

7. Any action taken or expense incurred as a result of operations pursuant to this STA is solely at SES Americom's risk.

This action is issued pursuant to Section 0.261 of the Commission's rules on delegated authority,
47 C.F.R. §0.261, and is effective immediately.

12. Description

SES Americom, Inc. respectfully requests earth station special temporary authority for a period of 60 days beginning on November 8, 2019 to permit SES to use its E050287 earth station to perform Tracking, Telemetry and Command for the ASTRA 3A spacecraft using Ku-band frequencies as the satellite drifts from 47 W.L. to 86.8 W.L. and to support operations at that orbital location. A full description of the proposed operations is provided in a modification application filed in parallel with this request, and STA is sought pending grant of the modification. The request is in the public interest because it will ensure safe satellite operations without causing interference to authorized users. See IBFS Submission ID IB2019003769.
