**Re: Supplement to Request for 180-day Special Temporary Authority to Add Capella Satellites as Points of Communication
Call sign E181611; IBFS File Number SES-STA-20200330-00341**

Dear Ms. Dortch:

Maris Developments (“Maris”), by its attorneys, files this letter to clarify the file numbers for the requested additional satellite points of communication in the pending application for 180-day Special Temporary Authority (“STA”) to communicate with the Maris earth station in Boardman, OR.¹ Specifically, Maris herein notifies the Commission that the Boardman earth station will communicate with the next two Capella spacecraft (call signs WJ2XJE and WL2XAD) as the spacecraft are launched and placed into their operational orbit.²

Grant of this STA is in the public interest as it will enable Maris to provide testing and validating downlink capabilities for its customer’s state-of-the-art Synthetic Aperture Radar satellites. This application will serve the public interest by facilitating systematic and efficient use of resources by satellite network operators and service providers.

¹ See SES-STA-20200330-00341 (filed Mar. 30, 2020).

² See 0029-EX-CM-2020 and 0028-EX-CN-2020.

Ms. Marlene Dortch
