Hi Trang,

ahhh okay!

The satellites to be used are:

SES 1 (3.7m C-band) @ 101 West  
Galaxy 19 (3.7m C-band ) @97 Wes  
SES 3 (2.4m Ku-band) @103 West

in comparing with the last 180 days STA the Galaxy 19 has replaced the SES11 in the previous request.

Best regards,  
Marco
