Universal Space Network
Amendment to SES-STA-20210809-01355 LEOP support for Syracuse4A spacecraft

SSC Space US (dba Universal Space Network) requests an update to the original date of authority. The original application described October 15th, 2021 as the start date for the operation for a 30 day period.

Universal Space Network respectfully requests a delayed start of operations date now be coordinated for October 20th, 2021.
