

ATTACHMENT TO GRANT
Moynk Properties, LLC
ICFS File No. SES-STA-20260415-00868

ICFS File No(s):	SES-STA-20260415-00868	GRANTED - With Conditions  Space Bureau
Licensee/Grantee:	Moynk Properties, LLC	
Call Sign:	E230174	
Satellite Name:	ICEYE Second Tranche (S3165), Third Tranche (S3224), Tranche 3.1 (S00757), Tranche 3.2 (S00806)	
Orbital Location: (required station-keeping tolerance)		
Administration:		
Nature of Service:		
Scope of Grant:	Moynk Properties, LLC ("Moynk"), is granted a 30-day special temporary authority (STA), to operate its satellite earth station to communicate with the, ICEYE Second Tranche (S3165), ICEYE Third Tranche (S3224), ICEYE Tranche 3.1 (X74) (S00757), and ICEYE Tranche 3.2 (X81) (S00806) satellites.	
Service Area(s):	70° 12' 14.2" N, 148° 28' 26.6" W in Prudhoe Bay, AK.	
Frequencies:	Operations will be performed at the following center frequencies: 2086.9 MHz with an emission bandwidth of 1.2 MHz (Earth-to-space) 8212.5 MHz with an emission bandwidth of 375 MHz (space-to-Earth)	
Operations under this grant must comport with the legal and technical specifications set forth by the applicant or petitioner and with Federal Communication Commission's rules not waived herein. This grant is also subject to the following conditions:		
1. STA operations must not exceed the operational power levels and parameters requested and coordinated. 2. STA operations must use the minimum power level necessary to establish communications links in order to minimize potential interference to licensed users. 3. All operations under this grant of STA must be on an unprotected and non-interference basis (NIB), i.e., Moynk must not cause harmful interference to and must not claim protection from interference caused to it by any other lawfully operating station. 4. In the event of any harmful interference caused by operations under this grant of STA, Moynk must immediately cease operations upon notification of such interference. Moynk must immediately inform the Commission, in writing, of such an event. 5. Earth station transmissions in the 2025–2110 MHz band are subject to prior coordination with the local Society of Broadcast Engineers, Inc. (SBE) frequency coordinator. Consult the list at https://sbe.org/resources/frequency-coordination/ to find the appropriate coordinator. 6. Moynk must limit earth station transmission (Earth-to-space) centered at 2086.9 MHz using an emission bandwidth of 1.2 MHz to a maximum duty cycle of 75% per station, and must cease all uplink (Earth-to- space) transmissions centered at 2086.9 MHz when the International Space Station (ISS) (NORAD ID: 25544) is within 7 degrees of the earth station antenna boresight. 7. All 8212.5 MHz downlink (space-to-Earth) transmissions to the Prudhoe Bay, AK earth station cease		

when Sentinel-6A (NORAD ID: 46984), Sentinel-6B (NORAD ID: 66514), SNPP (NORAD ID: 37849), and Oceansat-3 (NORAD ID: 54361) satellites are within a conjunction angle of 5 degrees, as measured from the boresight of the NOAA Fairbanks earth station antenna (64.9725 N, 147.5011 W).

8. The 24/7 point of contact in the United States, with authority and ability to cease all emissions, for this operation is the Operations Center at +1 (206) 399-1834).

9. STA operations must be in compliance with earth station applicable operations allowed by the space station authorization(s) or grant(s), including all relevant conditions, waivers, and findings therein.

This grant is issued pursuant to section 0.261 of the Commission's rules on delegated authority, 47 CFR § 0.261, and is effective upon release. This STA is authorized pursuant to the Commission's rule 47 CFR § 25.120.

Action Date:	07-09-2026	
Term Dates	From: 07-10-2026	To: 08-08-2026
