

Intelsat License LLC
Request for Extension of Special Temporary Authority
Castle Rock, Colorado – Call Sign KL92

Intelsat License LLC (“Intelsat”) herein requests an additional 30 days of Special Temporary Authority (“STA”) to use its Castle Rock, CO earth station, Call Sign KL92, to provide telemetry, tracking, and command services on-station for the Intelsat 40e satellite (S3066).¹

Specifically, Intelsat requests STA consistent with the scope of authority previously granted and extended by the Federal Communications Commission,² as described in the prior grant of authority attached with this application in the International Communications Filing System.

Grant of this STA extension is in the public interest because it will allow Intelsat to continue to help station keep the Intelsat 40e satellite.

Respectfully submitted,

/s/ Cynthia J. Grady
