

ATTACHMENT TO GRANT
Haras Development
ICFS File No. SES-STA-20260623-01905

ICFS File No(s):	SES-STA-20260623-01905	GRANTED - With Conditions  Space Bureau
Licensee/Grantee:	Haras Development	
Call Sign:	E181423	
Satellite Name:	WorldView-Legion satellites (Call Sign S2129)	
Orbital Location: (required station-keeping tolerance)		
Administration:		
Nature of Service:		
Scope of Grant:	Haras Development ("Haras"), is granted an additional 30-day special temporary authority (STA), to operate two ViaSat 5.4m antennas on its satellite fixed earth station to communicate with all Maxar License Inc. WorldView-Legion satellites (Call Sign S2129).	
Service Area(s):	40° 06' 1.911" N, 83° 11' 51.177" W in Dublin, OH	
Frequencies:	Operations will be performed at the following frequencies: 2085.6875 MHz with an emission bandwidth of 1.32 MHz (Earth-to-space) 8380 MHz with an emission bandwidth of 625 kHz (space-to-Earth) 8185 MHz with an emission bandwidth of 320 MHz (space-to-Earth)	
Operations under this grant must comport with the legal and technical specifications set forth by the applicant or petitioner and with Federal Communication Commission's rules not waived herein. This grant is also subject to the following conditions:		
1. STA operations must not exceed the operational power levels and parameters requested and coordinated. 2. The maximum total EIRP must not exceed 53.0 dBW or point the boresight (center line) of the earth station transmit beam to at least 1.5 degrees away from the GSO arc. 3. STA operations must use the minimum power level necessary to establish communications links in order to minimize potential interference to licensed users. 4. All operations under this grant of STA must be on an unprotected and non-interference basis (NIB), i.e., Haras must not cause harmful interference to and must not claim protection from interference caused to it by any other lawfully operating station. 5. In the event of any harmful interference caused by operations under this grant of STA, Haras must immediately cease operations upon notification of such interference. Haras must immediately inform the Commission, in writing, of such an event. 6. Transmissions authorized under this grant must cease when the NASA International Space Station (NORAD designation 25544, International Spacecraft ID 1998-067A) is within 20 degrees of the Dublin, OH earth station antenna boresight. 7. Earth station transmissions in the 2025–2110 MHz band are subject to prior coordination with the local Society of Broadcast Engineers, Inc. (SBE) frequency coordinator. Consult the list at https://sbe.org/resources/frequency-coordination/ to find the appropriate coordinator. 8. The 24/7 point of contact in the United States, with authority and ability to cease all		

emissions, for this operation is the Operations Center at +1 (206) 399-1834.

9. STA operations must be in compliance with earth station applicable operations allowed by the space station authorization(s) or grant(s), including all relevant conditions, waivers, and findings therein.

10. STA operations since the expiration of the previous STA and the commencement of this STA were authorized as continuing operations under 47 CFR § 1.62.

This grant is issued pursuant to section 0.261 of the Commission's rules on delegated authority, 47 CFR § 0.261, and is effective upon release. This STA is authorized pursuant to the Commission's rule 47 CFR § 25.120.
