

Intelsat License LLC
Request for Extension of Special Temporary Authority
Call Sign: E990365; Ellenwood, GA

Intelsat License LLC (“Intelsat”) herein requests an additional 30 days of Special Temporary Authority (“STA”) to use its Ellenwood, GA earth station, Call Sign E990365 (using antenna AK-8, also known as ATL-K23), to communicate with the E50WA satellite,¹ licensed by France, while Intelsat’s space station application to operate the satellite at the 50.3° W.L. orbital location under a U.S. licensing authority is pending.² Intelsat intends to seek a permanent license for the requested operations herein.

Specifically, Intelsat requests STA consistent with the scope of authority previously granted and extended by the Federal Communications Commission,³ as described in the prior grant of authority attached with this application in the International Communications Filing System. This includes a request for extension of all prior-granted waivers.

Grant of this STA extension is in the public interest because it will allow Intelsat to utilize the E50WA satellite and increase the available capacity at the 50.3° W.L. location pending the Commission’s grant of Intelsat’s pending application to permanently operate the satellite at that location under a U.S. license.

Respectfully submitted,

/s/ Cynthia J. Grady

Cynthia J. Grady
Assistant General Counsel
SES Americom, Inc.

on behalf of Intelsat License LLC
