

STA DESCRIPTION

Hubble Network Inc. (“Hubble”) seeks 60-day Part 25 special temporary authority (“STA”), from February 17, 2026 to April 18, 2026, for unlimited Part 15-compliant devices to transmit 2482.710675-2483.424 MHz (“2.4 GHz”) signals to the Hubble-1 to 7 satellites.¹ Background information appears in the corresponding regular authority application that is pending and the space station authority applications that were recently granted.²

¹ For this STA application, no 30-day public notice period is needed because the applicant has a pending earth station license application seeking regular authority. *See* 47 C.F.R. § 25.120(b)(3).

² *See* Hubble, Application, SES-LIC-20260215-00759 (filed Feb. 16, 2026); *see also* Spire Global, Inc., Application, ICFS File No. SAT-MOD-20250408-00095 (granted Feb. 13, 2026); Hubble, Application, ICFS File No. SAT-LOA-20241125-00268 (granted Feb. 13, 2026).
