

**Haras Development  
Request for 60-day Special Temporary Authority**

**Narrative Explanation**

On December 6, 2018, the Commission granted Haras special temporary authority (“STA”) for 60 days to operate its fixed earth station in Dublin, Ohio (Call Sign E181423) to communicate with the DigitalGlobe constellation of NGSO EESS satellites. *See* SES-STA-20180827-02508 (the “STA Grant”). Haras provided technical information for the operation of the earth station as part of the license application for the earth station, SES-LIC-20180816-02287. That license application, as amended, SES-AMD-20181219-03513, remains pending for grant.

Following the STA Grant, Haras filed timely 60-day renewal requests of the STA pursuant to Section 1.62 of the Commission’s rules. *See* SES-STA-20190129-00048 and SES-STA-20190327-00490. The Commission granted the most recent STA application with an expiration of May 3, 2019. *See* Stamp Grant, SES-STA-20190327-00490 (Apr. 3, 2019).

Pursuant to Section 1.62 of the Commission’s rules, Haras hereby files another 60-day renewal request to operate under the terms and conditions of the STA Grant.
