FCC NOTICE REQUIRED BY THE PAPERWORK REDUCTION ACT

The public reporting for this collection of information is estimated to average 2 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the required data, and completing and reviewing the collection of information. If you have any comments on this burden estimate, or how we can improve the collection and reduce the burden it causes you, please write to the Federal Communications Commission, AMD–PERM, Paperwork Reduction Project (3060–0678), Washington, DC 20554. We will also accept your comments regarding the Paperwork Reduction Act aspects of this collection via the Internet if you send them to PRA@fcc.gov. PLEASE DO NOT SEND COMPLETED FORMS TO THIS ADDRESS.

Remember – You are not required to respond to a collection of information sponsored by the Federal government, and the government may not conduct or sponsor this collection, unless it displays a currently valid OMB control number or if we fail to provide you with this notice. This collection has been assigned an OMB control number of 3060–0678.

THE FOREGOING NOTICE IS REQUIRED BY THE PAPERWORK REDUCTION ACT OF 1995, PUBLIC LAW 104–13, OCTOBER 1, 1995, 44 U.S.C. SECTION 3507.

12. Description

GUSA Licensee LLC (together with its parent Globalstar, Inc., 'Globalstar') is applying for a sixty-day extension of its existing special temporary authority ('STA') to test and validate a prototype of Globalstar's new, second-generation earth station antenna at its Clifton, TX gateway location. The Commission granted Globalstar its current sixty-day STA on December 17, 2019. Unfortunately, due to unforeseen software issues, Globalstar was unable to initiate the testing and validation of this prototype antenna as planned in late December 2019. To ensure that transmissions from this prototype antenna would raise no technical concerns for Globalstar's mobile satellite service ('MSS') network, Globalstar postponed the testing and validation process until these software issues were fully resolved. Globalstar now expects to begin this process during the first half of February 2020 and to conclude this activity during March 2020.
