

Special Temporary Authority Extension Request

HawkEye 360, Inc. (“HE360”) seeks a 30-day extension of its existing special temporary authority expiring January 17, 2021 for launch-and-early-orbit-phase communications between HE360’s Cluster 2 satellites and backup earth station in Herndon, Virginia.¹ Grant of this request is justified because of a launch delay postponing Cluster 2’s deployment to after January 14, 2021.

¹ See Grant, HE360, File No. SES-STA-20200528-00583 (granted Oct. 5, 2020).
