**Re: Request for Extension of Special Temporary Authority
Riverside, California Earth Station E990551**

Dear Ms. Dortch:

Intelsat License LLC, as debtor in possession ("Intelsat"), herein requests an additional 60 days of Special Temporary Authority ("STA")¹ previously granted to Intelsat² to use its Riverside, California C-band earth station (Call Sign E990551) to provide telemetry, tracking, and command ("TT&C") services for the Galaxy 30 satellite (S3016)³ at its on-station location of 125.0° W.L. Galaxy 30 arrived on station at 125.0° W.L. on January 21, 2021. Intelsat will be filing a modification application to support the proposed TT&C operations.

The Galaxy 30 TT&C operations will continue to be performed at the following frequencies: 6421.75 MHz and 6424.25 MHz in the uplink, and 4197.5 MHz and 4198.5 MHz in the downlink. The operations will continue to be consistent with Intelsat's coordination agreements for the 125.0° W.L. orbital location.

The 24x7 contact information for the Galaxy 30 mission is as follows:

Ph.: (703) 559-7701 – East Coast Operations Center (primary)
(310) 525-5591 – West Coast Operations Center (back-up)

Request to speak with Harry Burnham or Kevin Bell.

¹ Intelsat has filed its STA request, FCC Form 159, a \$210.00 filing fee, and this supporting letter electronically via the International Bureau's Filing System.

² See *Satellite Communications Services Information; Actions Taken*, Report No. SES-02336, File No. SES-STA-20201223-01433 (Jan. 21, 2021) (Public Notice).

³ See *Satellite Policy Branch Information; Actions Taken*, Report No. SAT-01359, File No. SAT-AMD-20180410-00026 (Nov. 16, 2018) (Public Notice); see also *Satellite Policy Branch Information; Space Station Applications Accepted for Filing*, Report No. SAT-01493, File No. SAT-MOD-20200805-00091 (Aug. 28, 2020) (Public Notice).

Ms. Marlene H. Dortch

In further support of this request, Intelsat incorporates by reference Exhibit A of its original request,⁴ which contains a coordination report. In the extremely unlikely event that harmful interference should occur due to transmissions to or from its earth station, Intelsat will take all reasonable steps to eliminate the interference.

Grant of this STA extension request will allow Intelsat to provide services at the 125.0° W.L. location and thereby promotes the public interest.

Please direct any questions regarding this STA extension request to the undersigned at (703) 559-6949.

Respectfully submitted,

/s/ Cynthia J. Grady
