Re: Request for Special Temporary Authority
Hagerstown, Maryland Earth Station E140121

Dear Ms. Dortch:

Intelsat License LLC ("Intelsat") herein requests 30 days of Special Temporary Authority ("STA"),¹ commencing August 10, 2022, to use its Hagerstown, Maryland earth station, Call Sign E140121, to provide telemetry, tracking, and command ("TT&C") services for Horizons 2 (Call Sign S2423)² during the satellite's drift to, and on-station at, 73.8° W.L.³ Horizons 2 is currently drifting to 73.8° W.L.⁴ Intelsat expects Horizons 2 to be within view of its earth station beginning August 10, 2022, and for the drift to be complete by mid-August 2022.

The proposed TT&C operations will be performed in the following frequencies: 14000.5 MHz and 14499.5 MHz in the uplink; and 12196.0 MHz and 12198.625 MHz in the downlink.

All potentially affected operators will be provided with an emergency phone number where the licensee can be reached in the event that harmful interference occurs. In the extremely unlikely event that harmful interference should occur due to transmissions to or from its earth station, Intelsat will take all reasonable steps to eliminate the interference.

The 24x7 contact information for the Horizons 2 drift operations is as follows:

Ph.: (703) 559-7701 – East Coast Operations Center (primary)
(310) 525-5591 – West Coast Operations Center (back-up)

Request to speak with Kevin Bell or Glen Jones.
