Reference: Application by AMSC Subsidiary Corporation for Pro
Forma Transfer of Control of Call Sign E900081 (File
Nos. 149-DSE-TC-93)

Dear Mr. Levin:

This is in response to your application, dated November 5, 1992, requesting Commission authorization of a pro forma transfer of control of the mobile earth station blanket authorization referenced above. The application indicates that several shifts in ownership among the shareholders of AMSC will result in over 50 percent of the ownership in AMSC changing hands since the last transfer of control was authorized and consummated. In addition, you state that control of AMSC will remain with the currently authorized shareholders or their currently authorized parent companies and, therefore, this is a pro forma transfer of control.

Because ultimate control over the above-referenced satellite authorizations will remain with the currently authorized shareholders of AMSC, Commission approval may be granted on a pro forma basis. Thus, based on the representations in your November 5, 1992 application and pursuant to Section 0.291 of the Commission's rules on delegations of authority, 47 C.F.R. § 0.291, we hereby grant formal approval of the transfer of control. The formal instrument of authorization will follow.

Sincerely,

James R. Keegan
