Re: Earth Station E980274
File No. SES-ASG-20000517-00822
Request for Extension of Consummation Period

Dear Ms. Salas:

On behalf of Lee Enterprises Incorporated and Emmis Communications Corporation, the proposed assignor and assignee, respectively, of the above-referenced earth station license, we wish to respectfully request that the period authorized for closing of the assignment of the license be extended. The Commission's consent to the assignment was granted by delegated staff action on July 6, 2000.

The earth station is used in conjunction with the broadcast operations of Television Station KMTV, Omaha, Nebraska, for which an assignment application remains pending in the Mass Media Bureau. The parties anticipate an October 1, 2000 closing of assignments and transfers of 16 co-owned television stations and related non-broadcast licenses to Emmis. Extension of the earth station assignment consummation period is requested accordingly, to permit simultaneous closing of all the assignments and transfers.

In the event any further information should be needed please communicate directly with this office.

Very truly yours,

Marnie K. Sarver
