

Exhibit F

This Form 312 application is being filed pursuant to an Agreement and Plan of Merger (the "Merger Agreement"), dated March 9, 2011, by and among Citadel Broadcasting Corporation ("Citadel"), Cumulus Media Inc. ("CMI"), Cadet Holding Corporation ("Holdco"), a wholly-owned subsidiary of CMI, and Cadet Merger Corporation ("Merger Sub"), a wholly-owned subsidiary of Holdco.

As stated in Exhibit 1 to this application, satellite earth stations E020134 and E050378 (collectively, the "Earth Stations") are licensed to Radio License Holding CBC, LLC ("RLH CBC") and are currently used in connection with radio broadcast stations in Little Rock, Arkansas, and Lansing, Michigan, respectively, to facilitate broadcasts to the public. By filing this application, Citadel, the ultimate parent of RLH CBC, has requested Commission consent to transfer control of the licenses for the Earth Stations from Citadel to CMI. CMI respectfully submits that a grant of this application would serve the public interest because it would allow RLH CBC to continue to operate the Earth Stations and thereby facilitate its broadcasts to the public upon consummation of the Merger Agreement.
