EXHIBIT F
FCC Form 312 - Schedule A

Response to Question A21

Public Interest Statement

By this application, Enlaces Integra, S. de R.L. de C.V. ("Enlaces Integra") requests the Commission's consent to an involuntary transfer of control. Satélites Mexicanos, S.A. de C.V. ("SATMEX"), a Mexican satellite operator, has a 75 percent ownership interest in Enlaces Integra. SATMEX filed for bankruptcy in the U.S. Bankruptcy Court for the District of Delaware on April 6, 2011, Case No. 11-11035. SATMEX is now operating its business as a Debtor-in-Possession. As of today, however, SATMEX's ownership structure has not changed. Furthermore, SATMEX's bankruptcy filing does not include Enlaces Integra.

Enlaces Integra offers satellite broadband services through a Time Division Multiplexing/Time Division Multiplexing Access (TDM/TDMA) platform and VSAT, including broadband Internet, video, data and private network services, to its customers. Enlaces Integra relies on SATMEX's satellites to provide service to its customers. SATMEX's pending bankruptcy case has not materially adversely impacted Enlaces Integra's ability to continue providing its services. The Commission's approval of the involuntary transfer of control of Enlaces Integra to reflect SATMEX's new legal status as a Debtor-in-Possession is in the public interest. The Commission's consent to the transfer of control will enable Enlaces Integra to provide continuous service to its customers while SATMEX completes its bankruptcy proceeding. Enlaces Integra's customers would be adversely affected if Enlaces Integra's operations were disrupted due to SATMEX's bankruptcy filing.
