

ATTACHMENT 3

Response to Question 42a

The mobile earth station terminals that are the subject of this application will communicate with the Inmarsat satellites on the ISAT list. These satellites are operated by Inmarsat and are licensed in the United Kingdom. The Commission has authorized earth stations licensed in the United States with the "ISAT" designation to communicate with the satellites on the ISAT list. *See Inmarsat, Inc.*, DA 08-2323 (rel. Oct. 21, 2008). Pursuant to the existing license, the Commission has already approved LXE's access to the Inmarsat satellites. This application does not affect the reasons underlying the Commission's prior approval of the use of the ISAT satellites. *See generally id.*
