Exhibit F

This application seeks FCC consent to the *pro forma* transfer of control of the earth station licenses (Call Signs E910391 and E030179) held by Yellowstone LicenseCo LLC (“LicenseCo”) from Yellowstone Investors LLC (“Investors”) to Yellowstone Television LLC f/k/a Yellowstone Holdings LLC (“Yellowstone Television”) that will occur as part of a corporate reorganization. Currently, Investors is the sole member of Yellowstone Television. Both Investors and Yellowstone Television are ultimately controlled by Jason Wolff. As part of an internal reorganization, the parties seek the Commission’s consent to dissolve Investors, whereupon the membership and managerial interests currently held in Investors will instead be held directly in Yellowstone Television. Because ultimate ownership and control of the earth station licenses is unchanged, the transaction is deemed *pro forma* in nature.

The earth stations held by LicenseCo are used in connection with the broadcast operations of KCWY-DT, Casper, WY and KGWN-TV, Cheyenne, WY for news gathering and coverage events of interest to the local communities. The parties to this application have filed an FCC Form 316 *pro forma* transfer of control application in the Media Bureau’s CDBS electronic filing system for consent to the *pro forma* transfer of the licenses for the TV stations associated with these earth stations. After consummation of the proposed transaction, LicenseCo will continue to use the earth stations in the same manner and for the same purposes as the earth stations were used before the *pro forma* transfer of control. Accordingly, grant of this application will serve the public interest.
