

**Exhibit F**

This application seeks FCC consent to transfer control of the earth station license identified at Schedule A, Item A8, of the instant FCC Form 312 (collectively, the “Earth Station”), from the shareholders of LIN Media LLC to the Post-Merger Shareholders of Media General, Inc. The Earth Station is used in connection with the broadcast operations of a full-power television station for news gathering and coverage of events of interest for the television station’s local community and surrounding service area. As described in Exhibit E to this application, this application is one of a series of applications that have been filed with the FCC, including an FCC Form 315 application filed with the FCC’s Media Bureau requesting Commission consent to transfer control of the licensee.

Upon consummation of the proposed transaction, the Earth Station will continue to be used in the same manner in which it currently is being utilized by the licensee. Therefore, a grant of this Form 312 application would serve the public interest.
