

Description of Transaction

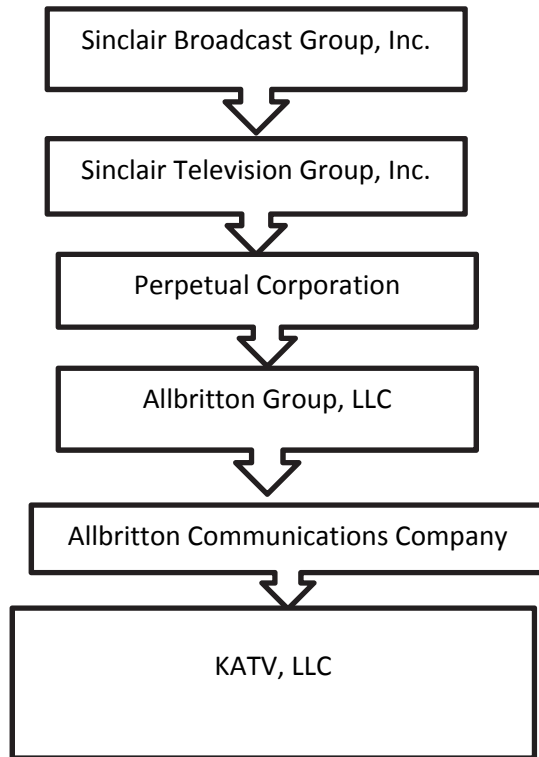

The proposed transaction is part of an internal reorganization.

In August 2014, the applicant proposed, and the FCC reviewed and consented to, a pro forma assignment application in which several earth station licenses, which are used in the operation of KATV(TV), Little Rock, Arkansas, would be assigned from KATV, LLC into a direct, wholly-owned subsidiary, KATV Licensee, LLC. See FCC File No. SES-ASG-20140829-00676 (the "August Assignment"). The August Assignment has not yet been consummated.

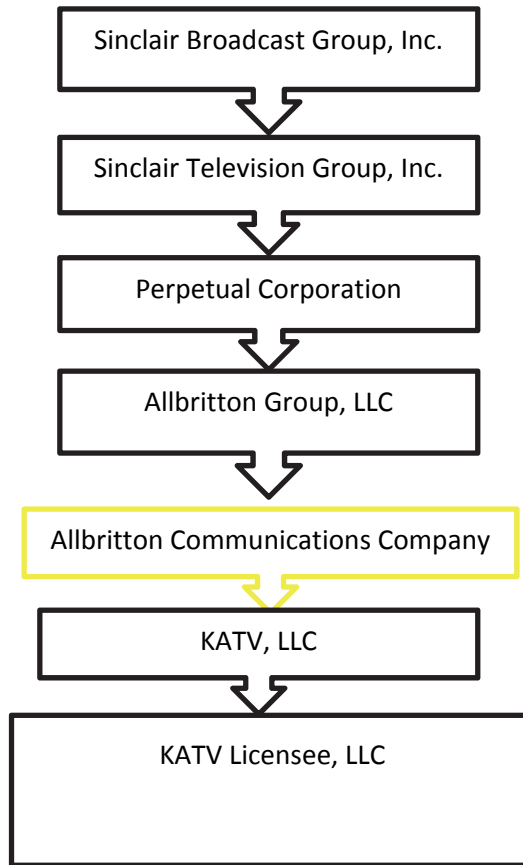

In the instant pro forma application, Allbritton Communications Company, KATV, LLC's controlling member, will merge in, and contribute its interests in the licenses, to its immediate parent, Allbritton Group, LLC ("AGLLC"). Following Commission consent to the proposed transfer of control, the parties anticipate concurrently consummating this transaction and the August Assignment. As a result, the licensee will be a direct, wholly-owned subsidiary of AGLLC. See attached ownership chart.

CURRENT, INTERIM and FINAL OWNERSHIP STRUCTURE

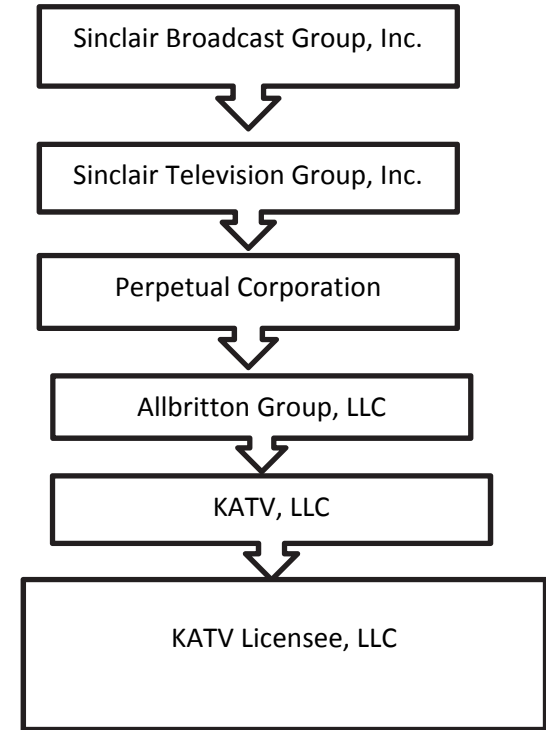

CURRENT OWNERSHIP STRUCTURE

INTERIM OWNERSHIP STRUCTURE¹

FINAL PROPOSED OWNERSHIP STRUCTURE

¹ The Interim Ownership structured, as filed in a FCC Form 312, was reviewed and approved by the Commission on October 14, 2014. See FCC File No. SES-ASG-20140829-00676. This transaction has not been consummated, but will concurrently close with the Final Proposed Ownership Structure application, following Commission consent, before December 31, 2014.
